MOKENA, ILLINOIS, FRIDAY, SEPTEMBER 26, 1924

\$1.50 per Year

NEW CITY BEING BOOMED STRONG

COLORED CITY OF 30,000 BEING PLANNED WHERE COLORED MAN CAN WORK OUT OWN DESTINY

New Lenox township will have a city of about 30,000 people within the next few years if the present plans of the promoters of the New Liberia Colored colony pan out successfully, as the promoters claim they will.

George Holle of Chicago, one of the chief promoters of the new enterprise, called at the News-Bulletin office Friday and said he had secured options on 1200 acres of land in New Lenox township and that the 445 acres of the Frank Chamberlain farm occupied now by Homer Kemp, have been purchased by the Liberia Land and Development Company and that this land will be laid out into 2500 lots at once and that within three years all of the 1200 acres will have been purchased and developed.

Mr. Holle is a member of the Liberia Land and Development Company which is to start a colony for colored people. This company has operated in Chicago for the past 35 years as the George J. Harberer Co., and are heavily financed and of good standing.

Mr. Holle said that the colored people have been kept down for so many years and yet in spite of this, have worked up wonderfully and that they are seeking a place where they can at least rest in peace in their homes, knowing they are free from violence.

Mr. Holle further stated that the Lincoln Highway will be the main business street and for a mile this street will be flanked on either side by business places.

Libby, McNeil and Libby and Armour & Co., have signified their intention of erecting factories in this new townsite and other industries and also anxious to locate here. The townsite will be located between the Michigan Central and Rock Island railroads and will have ideal transportation facilities.

The Rock Island has been asked to erect a station as soon as the townsite has been developed. After the land has been laid out in streets and lots, a big Chicago construction company will take over the matter of construction of paved streets, sidewalks, building, etc. Hundreds of thousands of dollars will be spent to develop this townsite. Busses will be used to carry the residents to and from the railroads.

Mr. Holle showed a plat on which all the lots on the Chamberlain farm are shown laid out with the streets running between. Two of the principal streets in the residence district have been already named Kemp Street and Harberer Street.

Only the higher class of the colored people are to live in this new city and there will be certain building restrictions, Mr. Holle said, so that no cheap, shoddy nigger shanty will be allowed to be built. All of the dwellings and business places will have to conform to certain restrictions. Good order is also promised as a strict police supervision will enforce order.

Mr. Holle said the State has offered to make an appropriation for the erection of school for the colored students and a colored college has also signified to locate there.

Hickory creek is to be dredged and bathing beaches will be established.

Mr. Holle said that this proposition is a winner and is going over big and that it will be the biggest

thing that has ever come to Will County.

The old oil well on the Wm. Schmuhl farm which caused so much commotion here a few years ago, is also to be located in the new townsite when Mr. Schmuhl's land is bought.

Following is a circular letter which is being sent out among the colored people to induce them to locate in the townsite:

"In view of the colored housing problem in Chicago today and seeing no relief otherwise, this Association took upon itself to find a remedy and after great effort and careful consideration, we have what we believe to be the finest location anywhere in the State of Illinois. This site, we are sure is for all; the business man, the professional man, and most of all the

George Holle.

masses, the place is adorned with creeks, springs, and natural groves. It is located on two railroads the Rock Island and the Michigan Central, and surrounded by many railroad and commercial centers, to wit: Joliet, Chicago Heights, Blue Island, Harvey, on direct line of Michigan Central Railroad, to Gary, only 30 miles to Chicago on Rock Island Railroad, with Lincoln Highway running right thru center of land.

In this offering we have over 1000 acres and intend to add another 1000 acres with a view of making this site the Garden Spot of America, for Negro people.

Since opening the sale of these lots we have been agreeably surprised to see the spirit exhibited by the many purchasers and we cannot but rejoice in their demonstrated desire for independence, both for themselves and for their posterity, and we willingly accept the same as evidencing the spirit of the New Negro, whose ambition is to take advantage of such opportunities, founding a home at a place in Illinois where the color of a man's skin will not serve to deny him the rights of manhood, and where he can at least rest in his home in peaceful repose, knowing that he and his dependents are safe from violence, and further knowing that if he wishes at any time to cast his lot for public office, this right cannot be denied him on the basis of color.

This splendid proposition will prove the Negro's capabilities by the management and control of their own destinies, and thereby start in the enjoyment of some of the many things heretofore wished for because as conditions have been in the past there is apparently only one time where the Negro has not been forgotten and that is in the time of exploitation in high rents and location.

Since this townsite has been created to combat that condition, there is no reason why you should not Buy Now, for by so doing, you

Slayer's Accomplice Released

Grace Asbury, who was held in material witness since the shooting of Constable Ernest Mueller of Frankfort the first of July, was released the past week and has joined her husband, Henry Asbury, at Davenport, Iowa.

The grand jury has voted an indictment of murder against Ralph Miller, said to have been the slayer of Mueller according to the Asbury woman who was riding with him in his car when the shooting took place on the road east of Frankfort.

ORLAND EXTENDS WATER MAINS AT COST OF \$19,921.00

The village board of Orland let a contract on Monday night to Idelhardt & Co., of Chicago for extending the village water mains from 143rd street to Raney's subdivision south up to 145th street and all territory in between. The new extension will cost \$19,921.00. The contractors above mentioned are to start work within two weeks and will have to complete the job by December 15th.

Idelhardt & Co., were the lowest out of five bidders, the highest bid being for \$20,700.

The new extension will give Orland an excellent city water service and fire protection.

The cost of the new extension is to be raised by special assessment spread over a period of ten years.

JUDGMENTS ENTERED

AGAINST FRED FOX, MOKENA

Last Thursday ten judgments were returned against Fred Fox of Mokena on claims presented at a court hearing by Orr & Brumund who are representing the creditors of Mr. Fox. Following are some of the creditors who filed claims against Mr. Fox: I. D. Marti, B. Balchowsky & Sons, Fred Werner Standard Oil Co., J. C. Funk, H. H. and Messenbrink, A. Habenicht, Dr. Van Wormer, John Cappel, W. H. Bechstein, A. Heilmuth, Mokena Hardware Co., Harry Mail, H. H. Sablin.

BIG KU KLUX DOINGS AT TINLEY PARK SAT. NIGHT

The Ku Klux Klan of Tinley Park has everything in readiness for a big parade and ceremonial to be held at Tinley Park Saturday evening of this week. Klansmen from Joliet, Frankfort, New Lenox, Chicago Heights and Harvey and other surrounding towns will be present and many of them in robes and hoods. Everyone is invited.

ERRORS

Thru error it was stated last week that Geo. J. Hacker, cashier of the Mokena State Bank had given an option on his land in New Lenox, located north of the Rock Island depot to the Liberia Land and Development Company. Mr. Hacker says he has not signed any option.

Error was made in last week's paper when it was stated the bazaars of the Mokena Methodist church and the Marley Community church would be held in October. The Mokena Methodist bazaar will be held on November 5th at the garage of Cooper & Hostert and the Marley bazaar will be held in their church basement on November 7th.

Attend Monee Fair

Practically the largest share of the residents of Frankfort want to Monee Thursday to attend the Fair. The school closed to give the school children a chance to attend the fair and hear Gov. Len Small who gave an address in the afternoon.

Our Progress Edition

The NEWS-BULLETIN in issuing this special Progress Edition is putting out the largest sized local paper ever issued in this section. Special writeups and feature articles show the progress that has been made in this section within recent years and what wonderful things are yet in store for this field.

This edition has been very liberally supported by the advertisements of the business men of this section and other towns and cities and we trust our readers will read over their splendid offerings and patronize them in return.

The NEWS-BULLETIN is issuing 2,000 copies of this edition so that practically every home in the large field covered by this paper will have a copy.

STRANGER TAKES SHOT AT MAYOR WOODS OF WORTH

Recently one morning Mayor Harry Woods was working in the U. S. office when he was associated with a trouble maker who was of the symptom while he was at work.

Not only is this stranger famous for its better

but it is known as the lifetime

exception the

such a disaster, but rather he believed that some stranger was trying to flag him down for a ride and when he did not notice him he became angry and fired the shot. It was a very exciting experience and one Mayor Woods does not care to have again.

THAT HE COULD BUMP TRAIN

The Wabash crossing which has been the scene of several fatal crashes within a year, was the scene of another tragedy last week.

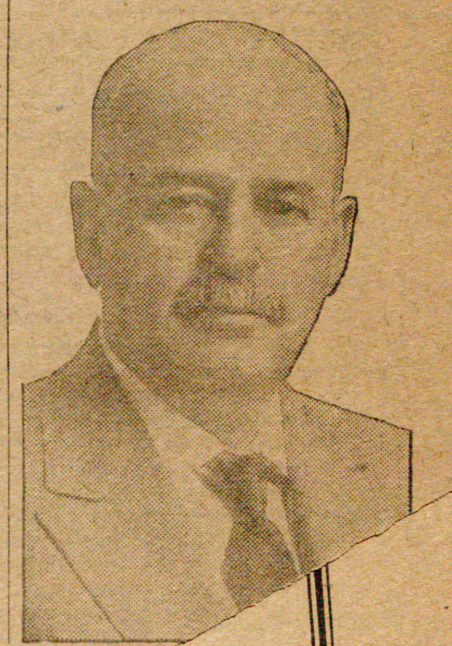

Chas. Deneen To End Campaign Sat.

Charles S. Deneen.

Former Governor Charles S. Deneen, Republican candidate for United States Senator, will begin the wind up of his down state speaking campaign at Cairo at 8 o'clock, next Monday morning September 29th. Having already established new records for street car campaigning in Illinois, the Senatorial candidate has set himself the task of "busting" his own marks. The last week of his trip will be devoted to "cleaning up" the state. He will get into all the corners and by places missed in earlier trips and when he ends the week at Rock Island Saturday night, will have covered more territory than any candidate has ever been over in the same length of time, except by special railroad train.

Gov. Small Speaks At Monee Fair

Hunt
Gov.

Gov. Len Small spoke at the Monee Fair on Thursday. He was accompanied by his family and a large delegation of friends. The fair was a great success and the governor's speech was well received. He spoke for about an hour and a half. The fair is a very popular one and is expected to continue for several more days. The governor's visit was a great honor to the community.

Worth not having a fire department, calls were sent to Mount Greenwood and Morgan Park for their motor chemicals, but when they arrived they could not get the chemicals to work right. Someone happened to think that the Wabash had a deep cistern used by them for watering their engines here about 15 years ago. The cistern was covered over but was finally located. A hole was punched thru the top and a hose pushed down into the cistern which was nearly full of water. The fire engines soon had a good stream of water playing on the flames which were then quickly subdued.

At the risk of their lives the fire men from the two towns mentioned and many from Worth, fought hard to prevent the fire from reaching the tanks. Worth residents deeply appreciate and thank the Mount Greenwood and Morgan Park fire departments for their prompt response and for their efficient service.

Time Changes Sunday

Don't forget to set your clocks back an hour on Saturday night. The suburban trains will run on old time again on Sunday morning.

To Hold Clinic

Dr. John Mitchell will conduct a Crippled Children's Clinic in the Public Health Council rooms in the Auditorium Building, Joliet, Ill., on Oct. 1st from 9 a. m. to 3 p. m.

When a pet mastiff dog belonging to Mr. Little, was struck and killed by a Wabash Flyer. This dog had a very peculiar trait in that when he heard the limited coming he howled and whined until it had ed thru the village. At the death he sat on the c howling at the oncoming train did not move until the train nearly on top of him, and was tried to run it was too late.

Women, Why Suffer?

Quincy, Ill.—"I was relieved of feminine trouble, which had caused me to suffer with headache and other distressing feelings, by simply taking a few bottles of Dr. Pierce's Favorite Prescription. I have had no return of the trouble and I am glad to recommend this tonic to all women who suffer. I wish someone had told me about this remedy long before they did."—Mrs. Rose Davis, 525 S. 3rd St.

Obtain this "Prescription" of your dealer, in tablets or liquid. Write Dr. Pierce for free medical advice, to Invalids' Hotel, in Buffalo, N. Y.

PAXTINE IS FOR WOMEN

who have feminine ills that need local treatment—Douches of Paxtine Antiseptic destroy disease germs, heal inflammation, ulceration and stops the discharge. The Lydia E. Pinkham Medicine Co. recommended Paxtine for years in their advertising. A pure white powder to be dissolved in water as needed—one box makes gallons of strong antiseptic solution that gives positive satisfaction—60c at drugists or postpaid by mail. THE COMFORT POWDER COMPANY, BOSTON, MASSACHUSETTS.

Defective Vision Said

to Be on Increase

The increase of blindness and lesser eye troubles has become so alarming in the last decade that experts who have been collecting data on the subject do not hesitate to declare that the nation is confronted with a menace of great magnitude.

It is estimated by the eyesight conservation council that defective vision of 25,000,000 of the 41,000,000 people in the United States is due to defective vision.

Far eye troubles ranked among the leading causes of disability among young men in the service; about 11 per cent of the men had defective vision. It is estimated that one out of every five people in the United States is afflicted with defective vision.

It is estimated that one out of every five people in the United States is afflicted with defective vision.

THIS PRESCRIPTION FOR KIDNEYS

No Drugs—Just Roots and Herbs

6 Ounce Bottle, 75 cents

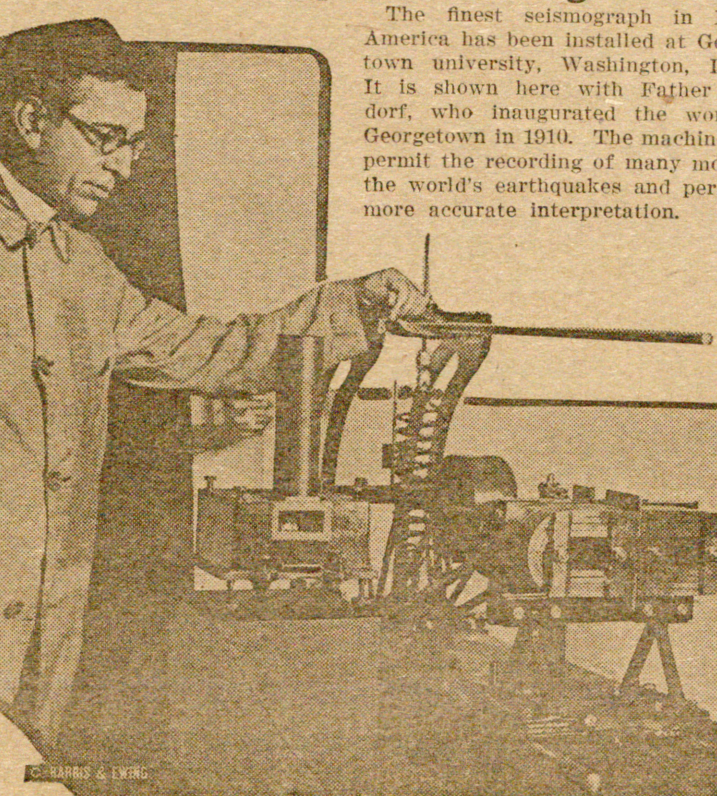

Years ago Dr. Carey said, "When backache comes get after your kidneys—and don't waste any time."
"Right at the start, go to your druggist and ask for Dr. Carey's Marshroot Prescription No. 777; take it as directed until backache ceases and your eyes are clear and bright."

For more than 40 years Dr. Carey specialized in diseases of the kidney and bladder, and when in the height of his remarkably busy life he decided to dispense his most effective kidney and bladder prescription through the better druggists, he helped thousands who could not afford to go to him for treatment.

Thousands of unobservant people have kidney ailments and never know it until too late. High colored urine, getting up in the night, and puffy eyes tell the story.
If you even suspect—start today with Dr. Carey's Marshroot Prescription No. 777. It will drive the poison from your kidneys and your druggist knows all about it.
Druggists dispense lots of it. It comes in liquid and tablet form. It will do you as much as a host of others. If you should not, if you aren't glad in one week's time that you bought it, money will be returned—and only 75c. If your druggist hasn't it he can get it from the Carey Medical Laboratories at Elmira, N. Y.

Dr. Carey, M. D.

New Seismograph for Georgetown

The finest seismograph in North America has been installed at Georgetown university, Washington, D. C. It is shown here with Father Tondorf, who inaugurated the work at Georgetown in 1910. The machine will permit the recording of many more of the world's earthquakes and permit a more accurate interpretation.

GREEN'S RADIO TOWER

This radio tower on the estate of Col. E. H. R. Green, son of the late Hetty Green, at New Bedford, Mass., is equipped with powerful amplifiers so that when Colonel Green opens his grounds to motor parties on Sunday evenings everyone can hear the symphony concert broadcast from New York through Colonel Green's station. During these concerts more than 2,000 cars are parked on the "Round Hill" lawn.

PASTOR-SLAYER ACCUSES WOMAN

Rev. Hight Confesses He Poisoned Wife—Says Mrs. Sweetin Killed Spouse.

Mount Vernon, Ill.—The Rev. Lawrence M. Hight made a third confession, repudiating a previous statement, and accused Mrs. Elsie Sweetin, with whom his name had been connected since his arrest last week, of poisoning her husband, Wilford Sweetin, last July with arsenic he had purchased for her.

The minister earlier in the day had confessed to the poisoning of his wife, Anna, who died last week. In a second confession he attempted to take the blame for Sweetin's death, saying he had given him poison in a glass of water. His latest confession repudiates this second statement.

Mrs. Sweetin was arrested following the minister's last statement.

Fearing possible mob violence, as the town of Ina had become violently excited following the minister's series of confessions, Sheriff Holcomb swore in fifty special deputies, armed them with revolvers and shotguns and formed a cordon around the county jail.

Doctor Hight, in his confession, said that a love pact had existed between himself and Mrs. Sweetin, and that they had agreed to marry after he had poisoned his wife.

This confession was made to the Rev. C. C. Hall, presiding elder of the Mount Carmel district, in which Hight was a circuit rider, who came to visit the accused preacher.

The sheriff was not present at the time Hight made the confession. When urged to tell more he begged leave to rest, claiming he was ill, but told Rev. Mr. Hall, "That is all, before God."

"You know you have not told all the truth, Lawrence," said Doctor Hall. "Why don't you tell everything?" Doctor Hight fidgeted around in his chair for a few moments and then broke down.

He cried for several minutes, and then, looking at his superior, said:

"It's no use shielding her any longer. God knows she is just as guilty as I am. She poisoned her husband, Wilford Sweetin, with arsenic I purchased for her in Benton on July 22."

"I was madly in love with her and she seemed to be with me. Several weeks ago we made an agreement to kill Sweetin and my wife. After he died I poisoned my wife, Elsie and I were then going to leave and get married."

Globe Flight Completed; Mothers Greet Flyers

San Diego, Cal.—For the first time in history man has flown around the world. Three of the four airplanes which left here last March, westward bound, came back from out of the East, having completely girdled the earth.

At 10:34:48 a. m. Lieut. Lowell Smith, commander of the squadron, dropped the wheels of his air craft on the ground of Rockwell field, followed closely by Lieutenants Nelson and Wade.

Amid the blare of a band, the cheers of the spectators and the roar of the propellers, came a cry from the lips of Mrs. Jasper Smith, mother of the world flight commander:

"I want my boy!"

Jumping from the plane, Smith rushed into his mother's arms.

"My boy, my wonderful boy!" she said, as she kissed the flight commander time and time again.

The man noted throughout the American air service for his steel nerve, his stoical demeanor in the face of the greatest danger, wept softly as another mother, too, wept for joy at the homecoming of the globe airmen. She was Mrs. Harding, mother of Lieut. John Harding, relief pilot and mechanic with Lieutenant Nelson.

"God bless you," said Mrs. Harding as she flung her arms around her boy's neck and kissed him. "God has brought you back safely to me."

Russ Cheka Executes 5,000 Georgia Rebels

Trebizond, on the Russian Frontier.—The Cheka has started a Red terror throughout Georgia. Three of the most notorious Cheka torturers, Peters, a sailor; Pankratoff, and Li-A-Zet, a Chinaman, arrived in Batumi to terrorize the population, and have commenced wholesale executions. The majority of victims are peasants, shopkeepers and teachers. Many women are being massacred. At Tiflis 1,200 persons have been executed, and in all Georgia more than 5,000.

Actress Faces Blindness

Los Angeles, Cal.—Eva Tanguay is losing the sight of her right eye. Doctors say she must have an operation in order to save the other eye. A catarract is responsible for the actress' grief.

Ship Sunk by Mine

Helsingfors, Finland.—The Norwegian steamer Ulf Jarl struck a mine in the Gulf of Finland and sank within ten minutes. All aboard were saved by the Finnish steamer Soedern.

FATHER AND SON

SYNOPSIS.—Thrown from his auto in a New York village, a man is carried unconscious into the home of a Miss Edith Grant. A doctor discovers he has been shot, fatally. Consciousness returning, he babbles of "millions." He begs that Henry Archman, millionaire resident of the vicinity, be sent for, declaring he has important papers for him. Archman cannot be reached by phone, but word is sent that his secretary is on the way. A man announcing himself as Archman's secretary, Akin, arrives, talks with Morbach, and leaves with a package he gives him. Morbach dies. Archman's arrival, with his secretary, reveals that the man posing as Akin is an impostor. Archman denounces Edith Grant as a girl endeavoring to snare his son Harry. Archman, it appears, has yielded to the importunities of his family—his wife, daughters Nellie and Bessie (seventeen years old), and son Harry—and moved to New York in an endeavor to gain recognition by the Four Hundred. They have not succeeded. Mrs. Archman is bitter over her failure, particularly mourning the fact that she has not been "taken up" by a Mrs. Van Kull.

CHAPTER III—Continued

"Yes; I wanted to see you!" Archman was plainly trying to hold himself in check, and was as plainly failing. "Yes! I wanted to remind you of some things you seem to have forgotten. One of them is that Archman & Company doesn't play favorites. Your job isn't very important, but it's all you've got between you and the sidewalk, and I'd advise you not to throw it away and trust to the old man to play parachute, because he won't. A boy can't fool around theaters half the night and give good work to the house the next day. You've got to cut it out or Archman & Company will cut you out. In other words, I'll fire you."

Harry turned red and white. He said to his father, "But his father gave him no chance. That's what I want to say to you as head of the firm," he rasped. "Now I want to add something as your father and not as your employer. I've been hearing tales about you and a so-called actress—"

Harry flushed. "Akin told you, I guess," he gritted. "I heard he's been sneaking around."

"Akin didn't tell me until I asked him. He didn't need to tell me. When a boy with a rich father makes a fool of himself, there are plenty of people to pass the news along. The papers will do it if nobody else. A sort of human tadpole blew into my office today with newspaper proofs of a story about you that he was going to publish unless I paid him a thousand dollars."

"Did you do it?" The boy almost shouted the question.

"I did not. The man who tries to conciliate a polecat always gets the worst of it. The thing to do is to keep away from the place where the polecats are. You haven't done that. This fluffy ruffles—"

"Don't say anything against her, father. I warn you!"

"I am not going to say anything against her. She'll say it for herself soon enough. She is making a fool of you for her own ends. But I am not going to argue the point with you. I haven't time and it wouldn't be any use. I learned long ago that there aren't arguments that will reach a fool when he's in love. You'll wake up after a while. In fact, I think the husks are due to sour on your belly mighty soon. If they're still sweet, go on eating them. But you'll have to take the consequences. Cut it out or you'll lose your job! Understand?"

The boy's brief flush of anger had faded. "You're not fair, father," he pleaded. "Miss Grant is a lady. She—Oh! By George! I feel like a cad even to defend her; it seems like admitting that there was some foundation for what you say. She's the best and the dearest and the sweetest girl in the world. She's the prettiest—"

"I don't doubt it. They always are. If they weren't pretty they wouldn't be dangerous. You want to remember that there are lots of ways that a man can commit suicide that are better and more all-round satisfactory than hanging round a—"

"Father!"

"Oh! All right. It's just as well you stopped me. I'm not ready to talk. However, that's enough on that score. Now listen to me. As you know, I am going to start for Argentina in two weeks or less—as soon as the El Rio is ready. I'm not going to ask any promises of you, but I want you to remember that while I'm away you've got your mother and sisters to look after, and that you've got to be decent for their sakes. Understand?"

"Yes."

When Nellie Gave Orders, She Was Imperious. Even Bess Yielded to Her Without Protest.

of Chicago and Kansas City, from the steel mills of Pennsylvania, the coal mines of West Virginia, and the oil wells of Texas; the sheep corrals of Wyoming, and the lumber districts of Wisconsin, and we force ourselves into the mansions of the so-called aristocrats. We've got to do it. We're drawn as irresistibly as the tides."

Mrs. Archman tried to break in. "Well, Henry," she began.

But Archman had the floor. "Of course, the East doesn't welcome us," he went on. "We annoy them, and they don't realize that our coming is the only thing that keeps them from petering out. They don't realize that it is the new blood, fresh from the soil, that renews their worn-out strength. They objected to us, just as the older peoples objected to the barbarians. We've got to break in just as the barbarians had to. Only we'll do it with dollars instead of with battle-axes. I've got nine million dollars, and nine million dollars can break into New York society just as surely and a good deal more easily than nine million barbarians broke into Rome."

Mrs. Archman shook her head. "Money won't buy everything, Henry," she declared patiently.

Archman snorted. "It won't, eh? Well, show me something it won't buy. If I wasn't going to start for Argentina I'd break a way for you with it in double-quick time. I've got a good mind to do it anyway before I go. By George, I will do it!"

Mrs. Archman shook her head again. "You can't break into society that way, Henry," she insisted. "People here are exclusive. It's hard for any newcomer to get in and—she hesitated a little—"and you know, Henry, meat is not—er—er—"

Archman's face grew red. "What's the matter with meat?" he roared. "Everybody eats it, don't they? There's money in it, lots of it. And the money don't smell, does it? I'll show you. There's old Van Kull! He owns the Ontario docks here, where my ships have laid for ten years. He's one of the Four Hundred, isn't he?"

"Yes; if his wife would call! But she—"

"But nothing! He knows what Archman & Company stands for. I'll see him tomorrow and you can expect Mrs. Van Kull the next day. No! By George! I won't wait till tomorrow. He lives only a mile or two away. I'll go and see him tonight. I'll go now." Archman swung around in his chair. "Here! James!" he called. "Have my car brought around."

Mrs. Archman protested, but feebly. Archman brushed aside her half-hearted objections, flung down his napkin and hurried to the front door. A moment after the four at the table heard the roar of the engine rise and die away in the distance.

Mrs. Archman shook her head doubtfully as she rose from the table. "Oh! I do hope everything will go well," she murmured.

"Go well!" Bess laughed. "I'll bet it'll go well. It's a new role for pops, but I'll bet he wins out. Now he's started he'll never stop till he corners the social market and undersells all competitors. You wait and see. But, say—"

she turned to Harry—"what was it all about, Harry? What had you been up to? 'Fess up!"

Harry, however, had risen from the table and was hurrying toward the door. "Nothing!" he called, over his shoulder, as he vanished.

"Nothing! That's just like a boy. Never mind! I'll get it out of him sooner or later. Come on, mumsy! I'll play you some ragtime." Sweeping her mother and sister before her, Bess rushed to the parlor, plumped herself down on the piano stool and plunged into the strains of "Get Out and Get Under."

"I'm referring to Mr. Van Kull when he sees dad coming," she shot over her shoulder.

Ten minutes later she ended with a crash of chords as Mr. Akin appeared in the door with inquiry on his face.

Mr. Akin was of the type that appears to have never been young and looks unlikely ever to become really old. His eyes were shifty, always avoiding those of others.

"Is Mr. Archman here?" he asked. "Some one wants to speak to him on the telephone. They are very insistent."

Bess shook her head. "Gone out!" she declared. "Tell 'em to call again."

Mr. Akin hesitated. "They are very insistent," he demurred. "There has been an accident of some sort. Somebody has been badly hurt and is dying, and wants to deliver a message to Mr. Archman; an extremely important message, the voice said."

"Father's gone to Mr. Van Kull's," explained Bess. "You might call him up there. Perhaps Harry—But no, Harry is out of reach, too. Here! I'll come talk."

Without waiting for either objection or approval, Bess ran up the stairs to the office and picked up the telephone. A short conversation followed. At last she hung up the telephone and turned to Akin, who had stood patiently waiting.

"Mr. Akin," she ordered crisply, "please go out at once to the cottage of Miss Edith Grant, on the Hudson River road at Curwen station, and take the message Mr. Morbach has brought. I'll try to get father at Mr. Van Kull's and rush him after you."

But Nellie broke in. "No!" she said decisively. "I'll go to Miss Grant's. Mr. Akin can go to Mr. Van Kull's and bring father after me." She turned away as if the matter were settled. "Bring my electric around, James," she ordered.

No one hesitated. When Nellie gave orders she was imperious. Even Bess yielded to her without protest.

So now we have the Archmans—evidently good material for lively happenings. What next?

(TO BE CONTINUED.)

She Distrusted Real Motive of Boy's Visit

In the family that had moved next door to the Smiths was a boy about seven years old. The Smiths had a little girl, Virginia, just the same age. Everyone expected the two children to become playmates at once, but almost a week passed before they noticed each other. Then the boy came over to play with Virginia. Virginia, however, immediately went into the house.

"Why, what's the matter, Virginia?" her mother asked. "I thought you had been wanting to play with the new boy."

"Well, I did at first," Virginia admitted, "but I don't care so much about it now, at least, not today."

"Why don't you want to play with him?" mother asked.

"Oh, mamma!" Virginia exclaimed. "He's had a whole week to come over here and hasn't done it. Now I've got a nickel to spend for candy and I don't care whether he comes or not!"—Exchange.

Pay Dollar a Day in Taxes

The tax paid by every American family amounts to one dollar for every working day, according to a banking authority.

Friends

If you want to keep your friends, you will have to do a lot of forgiving; and if you love them, you want to

(©, 1924, Western Newspaper Union.)

Lesson for September 28

REVIEW — OPENING PERIOD OF CHRIST'S MINISTRY

GOLDEN TEXT.—For God so loved the world, that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life.—John 3:16.

PRIMARY TOPIC.—Things to Remember About Jesus.

JUNIOR TOPIC.—Early Events in Jesus' Life.

INTERMEDIATE AND SENIOR TOPIC.—Lessons of Jesus' Childhood and Early Ministry.

YOUNG PEOPLE AND ADULT TOPIC.—The Opening Period of Christ's Ministry.

Two methods of review are suggested:

I. Have the pupils go over the quarter's lessons and bring in reports which will picture Jesus as to His deity, pity, courage, devotion, etc. This should be assigned the week before and the reports should be written out clearly and distinctly and restricted to a certain number of minutes, according to the size of the class and time allotted for the review.

II. The Summary Method. This consists in a statement of the principal facts and leading lessons. The following suggestions are offered:

Lesson 1. That which Micah the prophet foretold some 700 years before and Gabriel announced to Mary and Joseph took place in Bethlehem and was made known to the shepherds. When the shepherds had investigated they went back praising the Lord and telling the good tidings to others. Those who hear the Gospel must tell it to others.

Lesson 2. Though Jesus Christ was the Son of God, therefore divine, and had taken upon Himself the human nature, which the Holy Ghost had created, He developed as a normal human being.

Lesson 3. While Jesus was absolutely sinless, He submitted to baptism, which is a sinner's ordinance, because He took the place of sinners. It was an act of dedication of Himself to the task of bringing in a righteousness which was accomplished on the cross of Calvary.

Lesson 4. Jesus was led into the wilderness by the Spirit to be tested by the power and subtlety of the devil in order to demonstrate the reality of the union of the human and divine natures—in order that man might have a real foundation upon which his faith might rest in order to be saved, Christ met and defeated Satan by the use of the Scriptures.

Lesson 5. When John the Baptist pointed out to his disciples the Lamb of God, they left him and followed Jesus. When they came to know Him as the Messiah, they brought others to Him. The natural thing for one to do who has found Christ is to bring others to Him for salvation.

Lesson 6. Marriage was ordained by God and the first wedding was sanctioned by His presence. Jesus Christ, who was hourly about His Father's business, set a mark of honor upon the mainspring of life by gracing this marriage feast with His presence. The Redeemer of man thus lifted the ordinance of marriage to its proper dignity and beauty. The design was to show the divine glory.

Lesson 7. When Jesus, the Lord of the temple, found it defiled, He drove out the money changers and the animals. To use the Lord's house as a place of merchandise is to pollute it. Because He was zealous for God He could not rest while God's house was misused.

Lesson 8. Though Nicodemus was a man of high station, a ruler among the Jews, even a religious teacher, he needed to be regenerated before he could see the Kingdom of God.

Lesson 9. Because Jesus' supreme business was to seek and to save the lost He "must needs go through Samaria" to save the immoral woman who came to Jacob's well.

Lesson 10. Sickness of the nobleman's son brought him to Jesus. Because the nobleman believed Jesus he had the joy of seeing his son alive.

Lesson 11. Jesus' habit was to go to God's house to worship. While in the synagogue He read and expounded the Scriptures. It was not only His custom to attend God's house, but to take part in the worship.

Lesson 12. Though Jesus was divine He needed the solitude for the renewal of His strength in communion with His Father.

A Sentence Prayer

Father, we commit ourselves into Thy hands, and ask that Thou wilt do with us and for us as seemeth best unto Thee.

God's Aid

God endows with talent, furnishes the time, supplies the opportunity, and enables one to increase his possessions.—Baptist Standard.

All Belongs to the Lord

Silver and gold is the Lord's to give to whom He pleases.—Evangelical Teacher.

Belongs to the Lord

What the Lord has saved belongs to the Lord.—Evangelical Teacher.

HOW TO KEEP WELL

Dr. Frederick R. Green,
Editor of "Health."

(©, 1924, Western Newspaper Union.)

CANCER IS A MYSTERIOUS DISEASE

CANCER is the greatest mystery of the human body.

In spite of the fact that many scientists have devoted their lives to study of this scourge of humanity, we know little more about it than did our forefathers.

For hundreds of years, theories of one sort and another have been advanced, some of them reasonable and possible, others ridiculous and impossible. For a long time, the disease was believed to be hereditary. That theory was abandoned but revived a few years since as a result of experiments on mice, which seemed to indicate that cancer could be handed down from one generation to another.

Whatever the cause, it has thus far evaded discovery. We do know that cancer generally begins in some part of the body where there has been a constant and long-continued irritation, as on the lip of a smoker; in the breast of a woman, where there has been pressure or irritation from corsets or clothing; on the tongue or inside the cheek, where a broken tooth has irritated the surface; or in any other part of the body where there has been continued irritation. It may also develop from a mole or a wart on the skin.

The first indication may be a small sore or ulcer, the scab or crust of which, on coming off, leaves a freshly ulcerating surface beneath; or it may appear as a small lump under the skin; or, in the case of internal cancers, such as those of the liver, stomach or intestines, the first symptoms may be some digestive disturbance; while a malignant disease of the uterus, bladder or rectum would probably first be indicated by a bloody discharge from the organ. In the majority of cases of cancer, pain is not present until the disease has progressed to a serious stage, often too late for any help.

As far as present-day knowledge goes, there is no way of stopping a cancerous growth except by removing the diseased tissue. We do know that if the small local lump or sore is removed, the probabilities are more trouble will follow.

The early symptoms of cancer are similar to those of other diseases, and the layman is not capable of deciding what his trouble may be. You have any of the symptoms? Immediately. If you have a cancer, your only hope lies in early detection of the condition and prompt treatment.

THE HUMAN BODY NEEDS SLEEP

PROBABLY the average individual doesn't realize what an important part sleep and rest play in his physical and mental well-being and efficiency.

There is occasionally a person who apparently gets along very well with less sleep but eight hours is the requirement of the ordinary adult in order to keep body and mind functioning at their best.

To the perfectly healthy individual, sleep is simply to lie down, to close the eyes, and to lose consciousness. Unfortunately, few of us are so nearly normal that going to sleep is such a simple matter. We lie awake many minutes, sometimes many hours, before exhaustion finally brings sleep.

The inability to drop off to sleep at once may be due to any one of a number of things. Present-day life with its complexities, lack of exercise, lack of fresh air in the sleeping room, faulty diet, worry over business or personal affairs, tasks uncompleted, over-indulgence in tea or coffee, or any one of a dozen physical causes may be at the bottom of the trouble.

If we go about it conscientiously and with determination, it is comparatively easy to overcome most of these factors. We can correct the lack of exercise and fresh air. As to diet, the diet which agrees best with the individual is the one that makes him sleep best.

Digestive upsets are communicated to the brain and poor sleep and bad dreams are the result. If one has fallen into the habit of planning the next day's activities or of recounting the past day's achievements, failures, or unfinished duties after retiring, insomnia will be developed. With a little determination, it is easy to make the mind a complete blank and sleep will follow.

There are some simple preparations before retiring that will produce relaxation and induce sleep. For some persons, a warm bath is helpful if one gets into bed immediately after without chilling the body. Don't, after you are undressed, walk about in your bare feet. The nerves and blood vessels in the soles of the feet are stimulated and it takes some time to overcome the sensation. If the circulation is poor or if you are much fatigued, drink a glass of hot milk or lemonade.

If the room is noisy, shut out the noise, even if you have to put on ear muffs. Shut out the light by putting a piece of black cloth over the eyes.

Don't take drugs or medicines to make you sleep. Use common sense methods.

Pottery That Bounces

One of the many interesting features of the famous Wembley exposition is the British Guiana pavilion. The attendants show among other things some perfectly designed jars and vases which suggest the finest examples of pottery from Egypt or the earliest days of Greece. But the attendants will surprise you by taking up one of the jars and throwing it on the floor. It will bounce into the air, and you can catch it unharmed. These jars, which look for all the world as if they were delicate, as most jars seem to be, are an example of the art of British Guiana, where the natives make dishes and pots out of the sap of a tree. The raw sap is white, but with the addition of pure dyes, extracted from tree bark, this bouncing pottery is colored and made very beautiful.

Wooden Sewing Machine

A sewing machine made entirely of wood, except a few screws and the needle, is owned by P. A. Coney, Deering Center, Maine. Although wooden bobbins, wooden thread, and wooden needles are used, the machine works more than half a century in good working order. Coney's machine was made in 1870.

STEVE NEMETH AWARDED

DAMAGES IN ESCHE CASE

The case of Steve Nemeth, well known auctioneer of Lockport, against Milton Esche of Orland, came up for hearing in justice court in Blue Island Friday. According to the witnesses Mr. Esche while coming out of Raney's grove west of Orland in his car on Labor Day, collided with a car driven by Mrs. Nemeth. The latter's car was quite badly damaged and a little boy was cut by the broken glass of the windshield. Mr. Nemeth had told Mr. Esche he would settle the case if he (Esche) would pay the damage he did to his car, but Esche refused to settle. The judge found in favor of Mr. Nemeth and awarded \$30.00 damages.

If you are planning to hold a sale of Real Estate, Farm Sale, Merchandise or Live Stock.

It will pay you to call an auctioneer who has had years of experience as a stock man, who knows values and has a wide acquaintance among farmers and breeders.

This Paper is A Real Community Asset

"Miss Merg" Who Sets In Type the News of Your Community

This edition of the NEWS-BULLETIN, the only medium through which the community is informed of what is transpiring in the surrounding towns, the communities served by this news which shows that the weekly paper, also shows the progress of the NEWS-BULLETIN itself, for by the big metropolitan daily no local paper in this section has ever got out an edition like this one, space to devote to matters pertaining to the small communities.

Without the News-Bulletin in the field a very small amount of the local news matter would ever get into print in nearby city papers. Not only does this paper keep one community informed of what its neighbor community is doing, but it also keeps the community informed of the progress of the various communities to the attention of the great host of News-Bulletin readers and thus the business of the community is quickened and sales stimulated which often would not be consummated otherwise.

In addition The News-Bulletin provides interesting reading for all members of the family. It carries a serial story and often the most famous books of the day are run as serials in this paper and the readers throughout the year gets from six to eight serial stories which when completed would be the equivalent of that many books which could not be purchased for \$1.50, the subscription price of the paper for a whole year. These books would oftentimes cost that much for one book.

Then the important news of the week the world over appears in brief, snappy paragraphs and many of the big news events appear in picture form. Then for those who like a religious column, is a special feature each week in the Sunday School Lesson Column.

A special feature worthy of much attention is the column headed, "How To Keep Well" edited by Dr. Frederick R. Green, well known editor of the magazine called "Health". Many vital and valuable hints are given each week in this column how to combat ills and diseases and how to keep well.

And one of the real big features is a full page of comics for youngsters each week. There is no weekly paper for many miles around that can boast of this fact.

store, shop or a factory is.

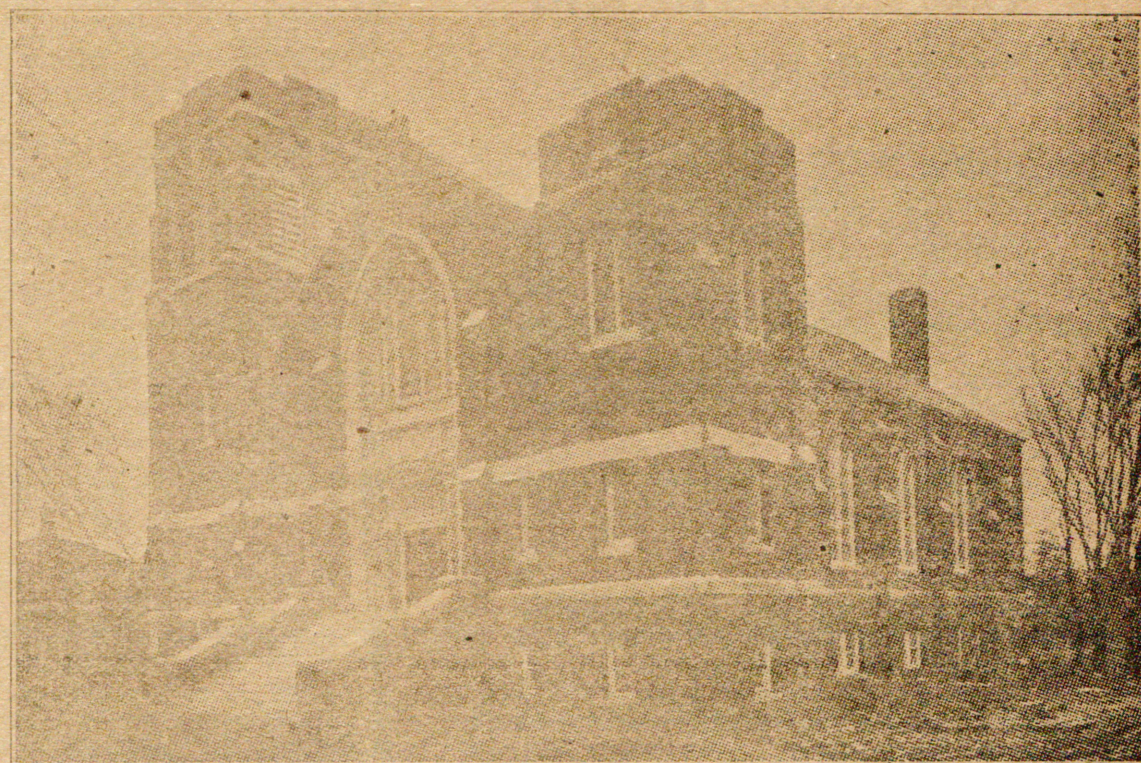

Some people have a sneaking idea they can take their spite out on the local paper by refusing to patronize it when they hold a grievance against its editor. Soon as they get peevish at the editor for something he has done or said to their disliking, the first thing they think of is to tell the editor to "take my name off the list," but let them do read the paper they ordered stopped, for they will go to the neighbors and borrow it.

Refusing to patronize the home town paper is much like refusing to listen to the local preacher—it does not stop either. Some refuse to endorse either because it entails responsibility—either moral or social—responsibility is the great bugaboo.

On the other hand let us be fair and say no person ever invested a nickel in News-Bulletin subscription that did not get adequate returns for the money invested. Compared this paper with any other of relative cost. Being fully appreciative had to ask for alms. This is a self-sustaining business venture, is not run as a charitable institution. We expect pay for what you get here but expect to give full value of the intrinsic sort.

The News-Bulletin does all kinds of commercial printing the Lino type way. We handle programs, tickets, cards, letter and note heads, bill heads, statements, wedding announcements and invitations, dance bills, sale bills and many other forms of printing.

MOKENA SHOWS PROGRESS IN BUILDING LINE; THIS IS THE LARGEST STRUCTURE OUTSIDE OF BOWMAN PLANT EVER BUILT IN MOKENA

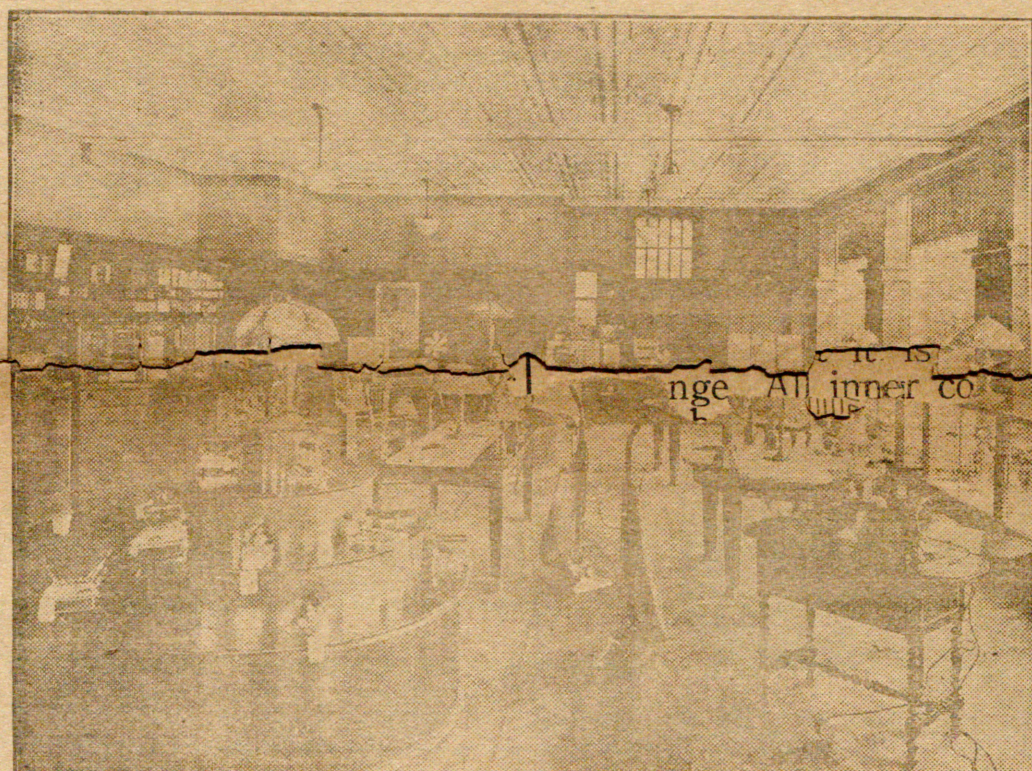

The St. John Evangelical Church at Mokena, Illinois.

Progress in the building line in Mokena has been developed to a certain extent within the past year when seven new dwellings were erected. It is understood that a number of new houses will be built next spring.

In addition to the new residences

going up, the largest building to be erected was the St. John Evangelical church which was built at a cost of \$60,000.00. This in fact is the largest and most expensive single structure that has been erected in Mokena at any time.

Mokena has many ideal building spots and with the excellent train service provided by the Rock Island railroad, it will be only a question of a few years before many Chicago people will buy lots and locate here.

For Your Convenience —28 Retail Stores

No. 14 in a series of statements about the Company's business.

FOR your convenience we maintain and operate 28 retail stores where information about the services rendered by this Company may be secured.

In each of these stores there is arranged for your inspection a full display of selected gas or electric appliances which the Company guarantees. These may be purchased for cash or on monthly payments with your service statement.

The sales force in these stores fully understands the appliances and will advise with you so that you may select the type suited to your particular requirements.

These appliances are correctly designed and manufactured to give good service according to standards set by the engineers of this Company. A rack of electric lamps, showing sizes, shapes and colors available for your use, is also on display.

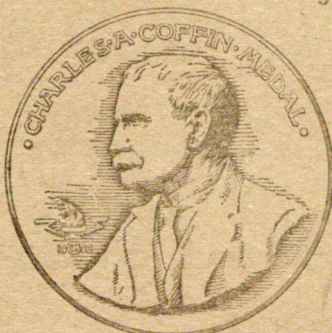

You are cordially invited to visit the Public Service Stores

PUBLIC SERVICE COMPANY OF NORTHERN ILLINOIS

FRANKFORT

FRANKFORT M. E. CHURCH PUTS ON NEW LUNCH ROOM ACTIVE PROGRAM

The Frankfort M. E. church has struck a real progressive note in planning for a rousing church year. Last Friday evening the members met at a supper at the church and mapped out a real program of church activity for the ensuing church year.

The plans as formulated call for a doubling of the church budget, of the membership and an increasing of all church activities.

As it takes funds to carry out all these plans, pledges were taken up and \$1200 were raised in cash the same night and with pledges outstanding and the regular Sunday collections it is estimated the church income will be \$2,000 per year. The conference has promised to supply the Frankfort congregation with a live wire pastor so that things will boom. This shows what a progressive church spirit can do. Much activity is going to be looked for from this church during the fall and winter months.

At the meeting of last Friday night, Rev. Wm. Ake, of Yorkville former Frankfort pastor and Rev. Mr. Hamilton of New Lenox were present.

As a rule it is hard to get a meal in the average small town and realizing this Frank Schau has decided that no one coming to the village of Frankfort should go hungry so he got busy a few weeks ago and remodelled the old Eichmeier saloon into a first class lunch room. He has had the place all newly decorated and painted and has placed tables and chairs in the large room formerly occupied by the saloon. Now quick hot lunches and meals can be secured at a reasonable rate. In addition Mr. Schau handles soft drinks, candy, cigars, etc.

Mr. Schau held a grand opening last Saturday night and had a full house. Frankfort should be proud to have two restaurants for the Cavallini and Priami hotel and restaurant also furnish meals and lunches of all kinds so you will not have to go hungry when you are in Frankfort.

The new lunch room is known as Eichmeier's place.

FRANKFORT'S NEW \$35,000 SCHOOL READY BY JAN. 1

One of the big progressive moves of the season for Frankfort is the building of a new \$35,000 school house. Work on the new structure has been under way all summer. The new building is now well under way and will be ready for occupancy about January 1st.

The new school will consist of four rooms, all on one floor. A large basement will house the playroom, furnace, lavatories, etc.

The building will be modern in every way and while caring for the present need of Frankfort, it will also amply provide for the future generations of Frankfort children to acquire an education.

This new building was started early this summer after the old building, which had been condemned by the state, was moved to another part of the school yard.

The new school will be a credit to Frankfort and will speak for the progress of the community in matters of education.

Mokena

Mokena's Modern Drug Store Is A Big Asset to the Village

Within the past year Mokena has been fortunate to get a real up to date drug store located here. Mr. Richard Hensel, the genial proprietor of this store, has had a great deal of experience in the drug line and has been a registered pharmacist for many years. He was a resident of Mokena many years ago and after leaving here he entered the drug business in Chicago. Within the past year he opened the finest and most up to date drug store it has ever been the good fortune of Mokena to possess. Mr. Hensel carries the best and purest of drugs and all the standard and most used drug sundries. In addition he carries a fine line of novelties all the year thru.

He also conducts a first class ice cream parlor. He also handles a line of popular monthly magazines something Mokena never had before and in connection with this he is the local news dealer for the daily and Sunday Chicago Tribune.

Mr. Hensel should have the undivided support of this community for it is worth a great deal to have such a convenient store as his in a town. Do not go out of town to buy your toilet goods, etc., but buy at home and help keep live business men in Mokena. Mr. Hensel sells the same articles you buy in the city and can and does sell as cheap and perhaps even much cheaper than city drug stores sell the same articles for.

Hard Roads Now Connect Mokena and Nearby Towns

For many years most of the main highways leading from Mokena to other towns were mud holes in wet weather and the highways between Mokena and Tinley Park and Orland were in the worst condition, but at last Mokena has been pulled out of the mud and these towns can now be reached on hard roads.

The year 1924 has seen real progress in the construction of concrete roads in this section. The Lincoln Highway has been completed at New Lenox, thus making a continuous stretch of concrete highway from Chicago Heights to the Red Mill and when the Rock Island subway is completed and connections made with the concreted portion of the Lincoln Highway on east Cass street at Joliet, there will be a stretch of 24 miles of concrete road from the Heights to Joliet.

The completing link will likely be finished next year. This is a notable step of progress for with the development of the concrete highway, communities are more closely bound to each other and where it used to take Old Dobbin several hours to make the trip from one town to another, it only takes a few minutes now with the present speedy auto. The concrete highway brings the communities in closer relationship in the business and social world. The farmer is also greatly benefited as he can haul his grain and produce to market without getting in the mud. The concrete road is open all the year round.

The automobile industry is directly responsible for the building of this great national highway. The fees from the auto licenses are used in building these concrete roads which would otherwise not have been built.

Had one spoken about concrete highways in this section a few years ago, they would have been laughed at. What would the old timers of the pioneer days say if they could see a great concrete highway span the continent where only mud roads once existed.

Cook County has developed concrete road building wonderfully. Some years ago a meeting was held at the Linden Garden in Tinley Park at which time plans were discussed for the building of concrete roads from Blue Island to Tinley Park and Orland. The war came on and things were at a stand still in this line. At the close of the war things became normal and the road building was again in full swing. Within the last two years concrete roads have been completed through the above men-

Mokena Needs A Community House

This is a very vital topic. A community center is a very important matter for every community.

Now to come right down to brass tacks, what does Mokena offer to its young people? Nothing, absolutely nothing! If the young folks seek recreation or pleasure of any kind during the fall and winter season when there is no dancing at the Men's club pavilion, there is nothing for the young folks to do but to go to the city or other towns.

Another thing that should not be overlooked, Mokena has no hall. If any show, moving picture or entertainment were even thought of, there would be no place to hold it. Public meetings of whatsoever nature, that needs the use of a hall cannot be held in Mokena, because there is no place to hold them.

For this reason Mokena needs a community center and needs it badly. The question then arises; where could a community center be located? There is the old St. John's church building which is standing idle. There are enough public spirited men in Mokena who have the interests of the young folks at heart as well as the interests of the community, and thru them it could easily be managed to organize together and buy the building and turn it into a real community center and thus this building would continue to be a blessing to the place and the good work continue on.

If this were done, plays, entertainments, moving picture shows and various other legitimate affairs could be held as well as basket and volley ball etc., and this would hold the young folks at home and help to improve our town, instead of having them go to questionable road houses as some of them do.

With the right kind of leadership all this could be done and the old time band could be re-organized and things made to boom. These are things all citizens who have the interests of the young folks at heart ought to think about. Some of these days these things will come to pass and they might just as well be started now as later.

When Mokena gets a community center started it will be the right step in the direction of civic progress. Twelve years ago Mokena had a progressive wave sweep over it. A Pleasure Club existed, there was a hall, plays were given, moving picture shows were run and there was something doing to interest the young folks and the older ones as well, but within the past few years this progressive wave has subsided and the town has been slipping back instead of advancing in the way of progress.

Our little sister village of Marley has shown how a community spirit can be made to thrive. Read the article about the way the Marley Community church is serving it's community instead of the community serving the church. If that small village can do such wonderful things, surely Mokena ought to be able to do likewise.

Mokena needs a vision. The Almighty Dollar and nickle chasing gets a town nowhere but instead blinds ones eyes. A community must have a vision. If Mokena wants to have real worth while citizens in the future it must provide the children of to-day with the essentials that make for good citizenship, for the boys and girls of to-day will be the men and women of to-morrow.

tinued towns and Worth.

All these communities are now close to each other through these bonds of cement. For many years there have been muddy and impassable stretches of highway between Mokena and Orland and Tinley Park. This summer these roads have been macadamized, thus connecting all the towns in this section with hard roads. The Mokena and Tinley Park road has been macadamized this summer by Frankfort township and the mile of mud road between Mokena and Orland is being made into a fine stone road by the Cook County highway department.

Millions of dollars have been spent in road building thruout the country, but this vast sum has been wisely invested bringing communities closer together and providing better markets for the farmer.

Don't Waste Fuel This Range Saves Half

At least one-third, and usually about one-half the fuel is required with a Cole's Hot Blast Down Draft Range. It burns the fuel gases other ranges waste by mixing 20 pounds of air with every pound of fuel. This great saving will give you money for other things you have wanted.

Not only is this range famous for its better baking but it is known as the lifetime range. All inner construction, except the firebox, is of heavy Armco rust-resisting iron, enameled.

It's a beautiful range, the finest to be had, and you should see and investigate it now during the special display.

Worth Is Showing A Real Spirit of Progress

WORTH IS GOING TO HAVE CEMENT WALKS AND ALSO GET GAS LINE

Within the past few years Worth has shown the world that it has a sure enough progressive spirit and this spirit is growing more vigorous as the years pass on.

With the coming of the concrete highway thru the village the first touch of the magic hand of the spirit of progress was felt and right on top of this came the demand for better lighting facilities. The citizens of Worth had to carry the old time lantern when they ventured out of their homes on dark nights, and the homes, business places and church only had the old time kerosene lamp for illumination. When neighboring towns began to get electric lights, the more progressive element of the citizenry deemed it was time that Worth also come in for its share of the modern way of illumination and accordingly a move was started to get the Public Service Company to extend their lines from Oak Lawn thru to Worth and after many months of work and waiting the electric lights were at last installed about a year ago and Worth is now enjoying as fine a system of illumination as can be found anywhere.

The next move that was in order was for sidewalks. Worth has never had any walks, paths being only used. In muddy weather it was very slippery and soft walking. After a long time the sidewalk proposition was finally threshed out and the village board had surveys made for the walks and this summer this work was completed and everything is now ready for laying the concrete walks. Work is to be started this fall and all the walks will most likely be laid by next summer. So far, fourteen property owners have already signified their intention of laying walks down on their property as soon as possible, which shows that the property owners have a right spirit of progress. All these improvements show a remarkable development of progress and also shows that Worth is going to come into its own one of these fine days.

In June of this year a Boosters Club was formed thru the instrumentality of Mr. B. F. Rolfe and other public spirited men. This club was called "The Worth Boost-

ers Club", and so far this club has been true to its name. Two dances were held at which neat sums were cleared which the club will use for purposes that will be of a benefit to the community.

Now the Boosters Club, thru Mr. Rolfe, has just launched another real big progressive move by circulating a petition to have the Public Service Company extend their gas mains from Oak Lawn thru Chicago Ridge to Worth. Thus far over sixty property owners in Worth have signed the petition which will be presented to the Public Service Company at an early date and it is thought that a favorable action will be taken on this petition by the Public Service Co. If the company agrees to extend its gas mains, work on the extension will most likely be started next spring and by a year from now or even in less time Worth people may be enjoying the city convenience of cooking by gas. It is hoped that this move will prove successful.

Within the last six weeks Worth has been given the best transportation service it has ever enjoyed. A bus line is now operating thru here from 95th Street to Orland. The busses run either way every hour. In addition to this, the Wabash railroad has also improved its suburban train service so that Worth has ideal transportation facilities to all surrounding towns and Chicago.

With the improvements which have been made and those that are under consideration now, Worth will make an ideal residence spot and undoubtedly will in course of time attract many home builders here.

Worth business places are active and carry good dependable merchandise and groceries so that all of the ordinary necessities can be easily purchased here.

There is one important improvement which Worth has yet got to be made, and that is the creation of a water system and a fire department. As a rule now days people hesitate to locate in a town which has no fine example of the popularity of water supply or fire protection.

Worth has learned by experience that it is badly in need of adequate fire protection.

In case of a serious fire the fire departments of Mount Greenwood or Morgan Park have to be relied upon for help. In case that these were unable to respond at once, the village would be in great danger of being wiped out of existence in case of a serious conflagration.

There is no doubt tho, but that the progressive citizens of Worth realize at this, but they cannot do everything at once and in due course of time, this needed improvement, will also be added to those now enjoyed.

Another thing Worth needs is a hall. At present there is no place that can be used for assemblages or for winter dances. It is probable that a move may be started to build a pavilion for summer dances and if such a project were carried out it would be a big asset for Worth as it would bring many people here and give the young folks the pleasure they seek, right at home.

Much credit is due Worth for all the improvements which have been made and for the "Go-getter" spirit which is so strongly manifest now. The local Methodist church has been doing considerable for the young people of the community and has been a big help in bringing progress to the community.

Forest Preserves Are the Public's Play Grounds

Worth and surrounding territory contain many natural beauty spots and the Forest Preserves in this section and in Palos Park are much enjoyed thruout the summer by city people. On Sundays these Preserves are used as recreation grounds and for picnics. Auto loads of people will come from Chicago and other towns and bring their lunches with them and enjoy a real time in the great out of doors in nature's vast wooded temples.

Tourists also find this a delightful bit of country and tourist traffic is quite heavy at times. The made, and that is the creation of a thriving business during the summer. The Lucas Corner stand is a to locate in a town which has no fine example of the popularity of these road side stands. As a rule they handle oils and gas in addition to the regular line of eats and

refreshments, candy, ice cream, cigars, etc.

There is one thing that the small towns of the country and many of the roadside stands, have been guilty of and that is, charging extortionate prices for their supplies. The tourists have been held up so many times that many of them are passing up the small towns entirely as they carry enough supplies with them to supply their needs. Many of the small town merchants and roadside stand keepers have noticed quite a falling off in trade and it is generally attributed to the fact that too high prices have been the cause.

Swallow Cliff has been an attractive spot for many picnics and other gatherings and is one of nature's beauty spots in this section. Recently the Chicago Motor Club held a huge picnic there and fully 10,000 people, if not more, attended the affair.

HOURLY BUS SERVICE

Bus service on the Lincoln Highway is furnishing transportation to the towns on this route from Joliet to Chicago Heights. A bus line operating over three routes furnishes hourly service between Orland, Worth, Palos Park and other villages to Blue Island and Chicago. Another progressive step brought about by the concrete roads. In reality these highways are potent factors in the building up of the communities they serve. Many city people are locating in the smaller cities and towns away from the big cities. Living conditions are better and property can be had so much cheaper and, just about all the conveniences of the city has been brought to the rural towns by the hard road systems.

The past few years have been filled with the spirit of progress and development which has greatly aided the growth of many of the towns in which The NEWS-BULLETIN is circulating. Orland, Worth, Palos Park, Tinley Park and New Lenox have been enjoying a building boom this summer, many new homes being erected.

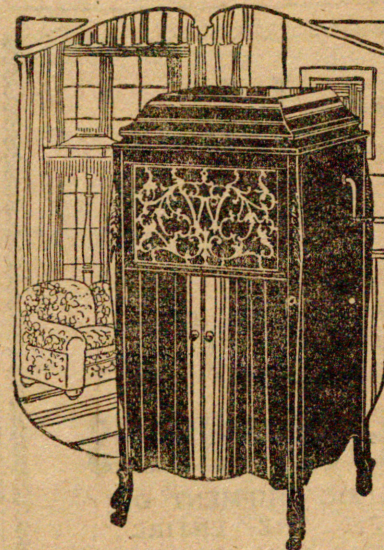

If this spirit of progress continues for the next few years, these towns will grow into good sized towns which will add to the prosperity of this section of the country. This whole territory has great opportunities for development ahead of it as it is so close to the great city of Chicago. Wonderful possibilities are in store.

MATTESON, ON I. C. RAILROAD VISITED BY PROGRESSIVE WAVE; CONCRETE STREETS LATEST

Mattegon, located in the southern part of Cook County, is coming into its own from present indications. The Illinois Central railroad is developing and building up the small communities from Chicago to Mattegon, the latter town being the terminal of the suburban service and excellence in train service is maintained, 37 trains being operated between Mattegon and Chicago daily.

The Illinois Central is planning to electrify and when this is done it will mean still better service and still better development of this section.

Flossmoor, to the north of Mattegon, is being boomed as the coming suburb of Chicago and great building activities are now in progress. This activity is also being reflected in Mattegon where new homes are being built.

Many of the Illinois Central employees have purchased Mattegon property and are putting up new homes. These newcomers are of a far different variety than are usually found in a village, because they are buying local property and becoming part of the community.

Mattegon is enjoying a boom as the result of all this activity. The First State Bank of Mattegon has had a wonderful business ever since the Illinois Central started their elevation work thru here. Now since the building boom is on at Flossmoor, the Mattegon Bank has done a large loan business, some months as high as \$30,000.00 being loaned on real estate for building purposes. This bank now has \$50,000 in its capital and surplus fund and is a member of the Federal Reserve

Bank. Another big boom for Mattegon has just come. Its principle streets are being concreted, the state and village sharing in the cost of this work. Road-building machinery has been at work in the village for several weeks, grading the streets and preparing the roadbed for concrete. This will give Mattegon a real civilized appearance. This is an ideal place for a home-site as it is near Chicago, being only a 35 minute ride on the Illinois Central to the Randolph Street station. In addition the concreted Lincoln Highway runs only a short distance north of Mattegon, which provides ideal auto transportation to Chicago or Joliet on the concrete.

No one is out of employment in Mattegon and every dwelling is occupied, not even a vacant room being for rent. All business places report good business.

Mattegon, however, is lucky to have this boom come at the time it did to pull it out of a rather bad mess. A few years ago, a chemical plant was built and after operating for a short time, it closed down and the people of Mattegon and vicinity had \$80,000 tied up in it. This was a stunning blow. Shortly before that, a local company was incorporated to publish a local newspaper which also suspended business a short time ago. Quite a little money was also tied up in this venture.

Mattegon people have been stung so many times with wildcat and gold brick schemes and investments that it is estimated \$150,000 to \$200,000 would hardly cover the losses sustained. Now, no stocks or bonds can be sold in Mattegon.

FARMERS' FINANCIAL STATEMENT AS AN AID TO BUSINESS SUCCESS

By D. H. OTIS, Director, Agricultural Commission
American Bankers Association

Farmers, like other business men, frequently need to borrow money. Business men furnish their bankers with a statement. Why should not the farmer? In order to safeguard the depositor's money which he loans out, the banker needs full information regarding the borrower's financial condition. Many farmers are entitled to better credit standings which such credit statements will give them. These statements will also tell the farmer whether his business as a whole is a going concern.

D. H. Otis

It is not such a difficult task to make out a statement at least once a year. The first year will be the hardest. After that it will come easy. The statement should include the value of land and buildings, the value of the crops on hand at the beginning of the year, such as grain, hay, fiber crops, fruits and vegetables, etc. The statement should also include the number and value of the different classes of livestock, including horses, cattle, sheep, hogs, poultry, bees, etc. It should also show value of crop machinery, dairy equipment, poultry equipment, harness, pleasure vehicles, power machinery, etc. Under other assets should be included cash on hand or in bank, loans receivable, accounts receivable, cash value of insurance policies, stocks and bonds, United States securities and other miscellaneous assets, not included in the above.

The financial statement should also list liabilities, such as mortgages, both real estate and chattel, notes due bank, notes payable to others, accounts or bills due others, premiums on life insurance, interest on loans, etc.

The net worth may be determined by taking the liabilities from the total assets. If there are any contingent liabilities they should also be listed. These would include endorsements on notes of others, security or bondsman for others, leases or contracts, judgments or suits pending.

Other Information

In addition to the above, general information could be given on the cash value of life insurance assets pledged as collateral or insurance carried on buildings, insurance carried on livestock, insurance carried on machinery, implements, taxes for the year,

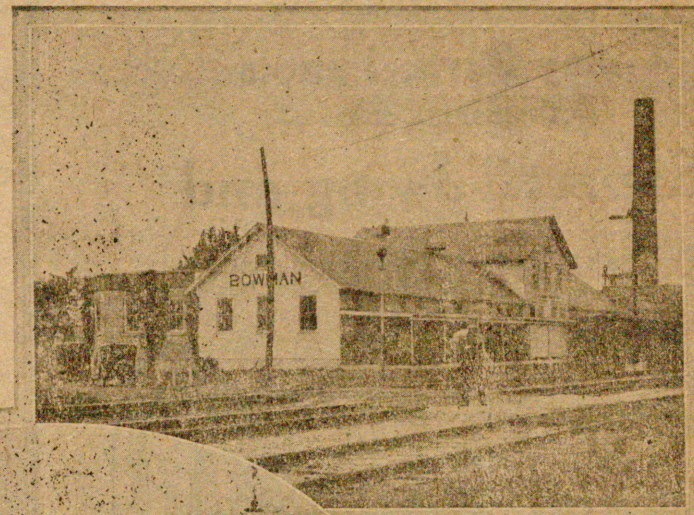

cash received during the year and cash paid out during the year. These various items can be arranged in tabulated form, and the figures indicating the amounts involved placed opposite each item. A copy of this credit statement should be preserved for use in making out next year's statement, and also for purposes of comparison when two yearly statements have been compiled. This comparison will give the farmer an idea as to how his business is going. It will be in the nature of an inventory, and will furnish abundant food for thought. If the practice is persisted in for a series of years it will be of untold value to the farmer in studying the business management of his farm.

Business men find it absolutely necessary to take inventory and prepare financial statements. Such practice has not been so general with the farmer. Here lies an open door of opportunity. The financial statement is the first step toward reliable farm accounting. Once the farmer gets started in making statements it will stimulate him to keep more records, to study more closely and minutely his business and to ascertain the sources of his profits as well as the factors that make up his expenses. When these are known ways will be suggested as to how to increase receipts and reduce expenses. There are both satisfaction and profit in following up from year to year these credit statements and the farm records that necessarily go with them.

MOKENA FEATURED IN SPECIAL MAGAZINE ARTICLE

Mrs. Mildred Shevlin, Operator, Mrs. Clida Deadmore, Chief Operator and Miss Edna Schmulh, Operator, are "Weavers of Speech at Mokena."

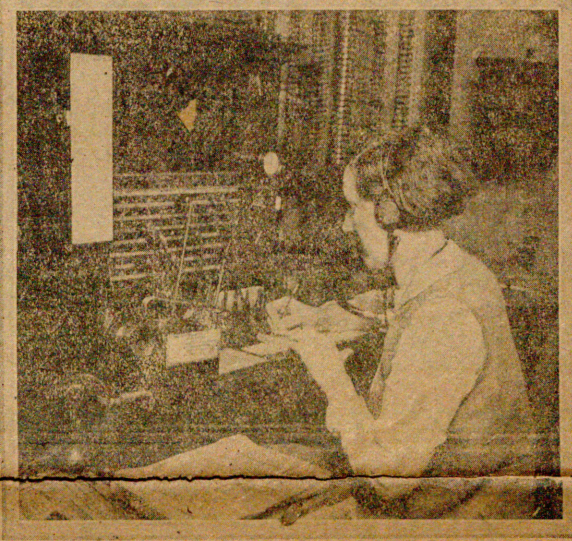

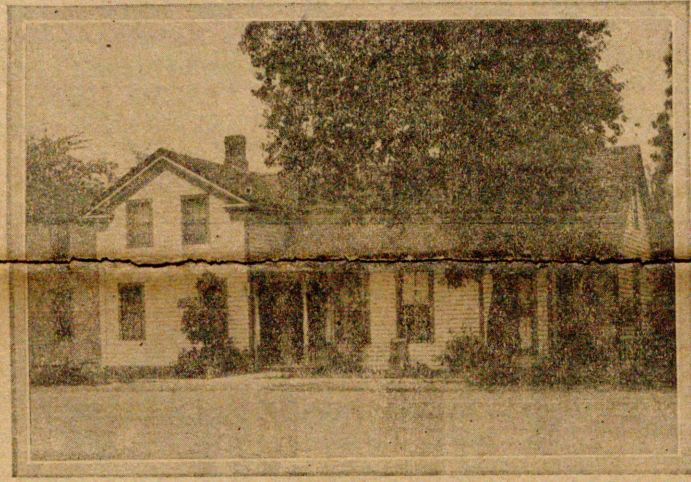

Milk shipping is one of the chief occupations of this town.

Two horse-power hay motor.

Mokena State Bank

Miss Edna Schmulh is completing calls at Mokena.

At left—The telephone office.

Mokena, Center of Dairy and Farm Interests.

The Bell Telephone Company thought enough of the Mokena telephone exchange to give it a full spread of pictures as well as a special writeup in the August number of the Bell Telephone News and the News-Bulletin is pleased to run this spread in this, its progress edition, the plates being kindly loaned to us thru the courtesy of Mr. H. F. Crunden of the publicity Department of the Bell Telephone Company, with headquarters in Chicago.

Following is the article that appeared in the Bell Telephone News. "Just a little way out of Chicago on the Rock Island Railroad is a town called Mokena, not a large one—but the best paintings are always the biggest.

"The name sounds as if it might have been that of some Indian prince, but that does not matter for Mokena is not an Indian village but a farming center and of the type of prosperous community which makes the bone and sinew of our country.

"Here everyone knows everyone else, and the community interest is manifest at every turn.

"The farming and dairy interests constitute the principal business of this town, whose proximity to Chicago will always furnish a ready market for produce of all kinds. A large milk depot beside the railroad tracks gives evidence of the extent of the dairy industry in the surrounding territory necessary to support an institution of its size.

"The telephone exchange at Mokena looks after the needs of about 125 subscribers, the greater number of whom are served by what are known as 'farmer lines.'

"If, at any time you have the good fortune to be able to spend an hour in Mokena, be sure to look up Millis Knickerbocker. You will have no trouble in locating him, for every body knows him.

"Mr. Knickerbocker is a telephone pioneer, for he was the first manager of the New Lenox Exchange, having cooperated with W. R. Abbott and O. J. Holbrook in getting about thirty subscribers for a start. That doesn't sound like much in these days, but thirty years ago acquiring thirty new subscribers was quite an achievement.

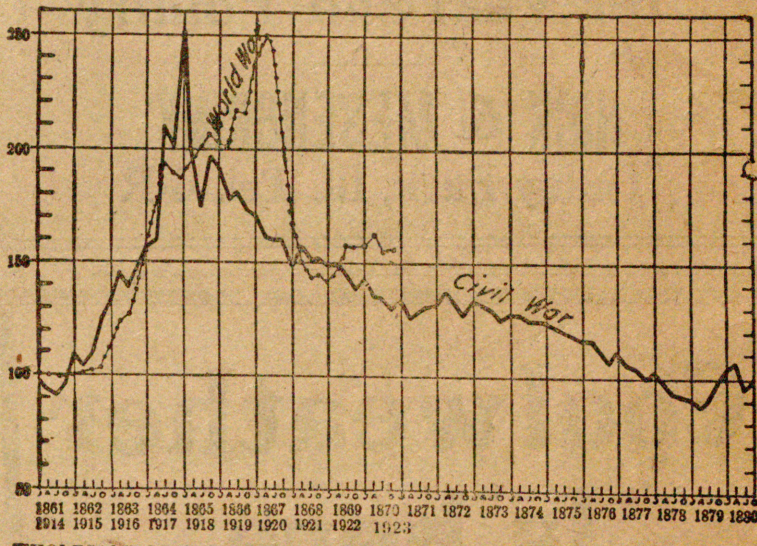

"Mr. Knickerbocker is ninety-two years of age, marvelously hale and hearty, and still retains an active interest in the scientific side of the telephone business. Up to date? What better proof would you need than the fact that he builds his own radio sets, and gets an everyday thrill out of life? The moral is—or might be—build a radio set of your own and keep interested in your work if you would live long and be happy."

The Mokena telephone exchange has seen a big stride forward from the days when the old Northwestern or Interstate Telephone Company operated the local exchange. Much progress has been made in the way of better service and equipment within recent years so that Mokena now has a real first class exchange.

Mrs. Hugh Deadmore is the present manager. She served as manager of the New Lenox exchange for nine years and has had much telephone experience and knowing this the telephone company prevailed strongly on her to take up the local exchange when a new manager was needed here several years ago.

When the picture of Mrs. Deadmore and her assistant operators was taken as shown above, she had just met with a serious accident which had resulted in a broken foot when a step ladder she had been standing on while washing windows broke and threw her to the ground.

Outlook for Farm Prices

Will prices go up or down, or remain stationary during the next decade? If you knew the answer to that question and knew how to take advantage of the situation, it would mean money in your pocket, according to the Sears-Roebuck Agricultural Foundation.

Dr. G. F. Warren, agricultural economist of Cornell university, has collected evidence on the price trend to be expected. He finds prices are acting in almost exactly the same way they did following the Civil war. The price level following the Civil war continued to fall for 13 years. Dr. Warren believes price levels in the United States will again act in this way.

The present huge supply of gold has much to do with the situation. Great Britain alone has sent to the United States since the beginning of the war more than \$1,800,000,000 worth of gold—nearly a quarter of all the gold money in the world. Before long, Dr. Warren thinks, Europe will take her gold back. Then prices will go down.

When Hungry Stop at Sauers Sandwich Shope

Concrete roads bring progress to the communities which they serve. In the wake of the concrete road thru the Tinley Park territory the spirit of progress has been brought to Gosselville north of Tinley Park where Mr. J. C. Sauers has opened a cozy and inviting restaurant and ice cream parlor which he has aptly named "Sauers Sandwich Shoppe." This place is ideally located in the Y of three concrete roads, one road coming from Blue Island and is known as 147th Street, the other one is the Bachelor Grove road and coming from Tinley Park it makes a curve at Gosselville toward the village of Orland and thus a Y is formed and right at the east side of this Y is Mr. Sauers Sandwich Shoppe.

Mr. Sauers place is a "brand new one" and has been in operation only a few weeks during which time it has been well patronized by the autoists. It is the logical place at the logical corner.

Short order lunches, hot coffee, home baked ham, red hot, cheese and egg sandwiches, ice cream, soft drinks, candy, cigars, etc., can be had at any time and reasonable prices. A specialty is also made of the real old time palate tickling chicken dinners for automobile parties, but arrangements for such dinners must be made ahead by telephoning Tinley Park 26 R2.

Mr. Sauers owns a 20 acre farm on which his restaurant is located and has been in and about this section for the past 15 years and is well acquainted here. He has been residing in Chicago until this summer when he entered his new line of business.

Mr. Sauers also operates a Sinclair Refining Company gasoline and oil service station.

Whenever you drive through Gosselville, do not forget Sauers Sandwich Shoppe for it will be worth your while to stop there for refreshments and eats.

New \$30,000 School for Tinley

The year 1924 has seen many progressive moves in Tinley Park in the business life of the town, but the most progressive move has been in the educational line, as a modern new school is being built to afford the best school facilities for the children of the community.

The new school is now under construction and when finished it will be a credit to the community. The new building fully equipped is expected to cost \$30,000 which amount could not be better used than it is for it provides for the education of the future men and women of Tinley Park. Red pressed brick are being used in the outside walls trimmed with white stone. The building will be two stories in height and will contain four good sized rooms. A basement play room has also been provided for the little folks. The building committee has planned wisely inasmuch as they have planned the layout of new building so that additional units can be added should future school needs of the community ever make it necessary.

The new school will be equipped with all modern conveniences and will be a great contrast to the little red school house once attended by the older residents of Tinley Park.

Modern Shoe Store Supplants Old Landmark

George Schreiber, widely known shoe dealer and cobbler of Tinley Park, has contributed his share to the progress of Tinley Park this year by erecting a modern shoe store and repair shop, which he has opened within the past few weeks.

Early this summer Mr. Schreiber vacated his old shoe store, a landmark in this section, having been built long before the Rock Island was built thru here and was used as a shoe shop at one time and then as a store. When it was used as a store whiskey was sold as part of the grocery line for 25 cents a gallon.

After the old building was torn out, a fine new structure, built of concrete bricks was erected in its place. Mr. Miller, local mason, making the blocks and doing all the mason work. The new store is well laid out and affords ample room for the display of footwear. In the rear of the store Mr. Schreiber has a commodious shoe shop. He planned well and has an abundance of light.

A basement runs under the entire building and houses the hot water heating plant which heats the store and shop and a pipe is also extended over to the residence of Mr. Schreiber, adjoining the shop, and part of the home is heated by the same heating system.

The concrete blocks used in the construction of this building were manufactured right in Tinley Park by Mr. Miller local contractor and mason.

The front of the store contains two large windows which are well adapted for displaying shoes. In addition to the displaying facilities by day, a fine electric light system provides for an equal excellent display of stock by night. The store and shop are well arranged and the entire structure is a credit to the progressive spirit of Mr. Schreiber and to the progress of the community.

Mr. Schreiber is carrying as fine a stock of footwear as can be found in any town the size of Tinley Park and he is ever ready to be of the utmost service to his patrons.

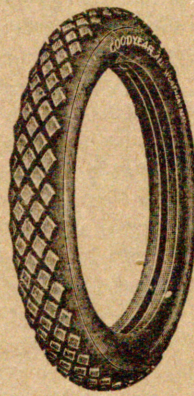

Mr. Schreiber, who is a native of Germany, came to America 43 years ago, first settling in Minersville, Pa. where he engaged in the shoe business and after two years he moved to Illinois, first settling in Gosselville, three miles north of Tinley Park. Here he conducted a shoe shop for ten years. During his residence there he also served as postmaster. He brought mail to Tinley Park and took incoming mail back three times a week, the trip being made between the two places afoot. In case of snow or wet weather, Mr. Schreiber had a mighty hard road to travel, for what is now a concrete road, was then a mud road. He carried the mail sacks on his back and for all his labors he received the munificent remuneration of \$83 per year.

After living ten years in Gosselville, Mr. Schreiber located in Tinley Park where he has been in active business for 31 years. He has occupied his present home for 28 years. He has worked up a fine patronage and has many warm and loyal friends in this section. He is at present, vice-president of the Bremen State Bank. He is a member of some of the best German Sang Vereins in this country. He is also a member of the M. W. A.

Tinley Park appreciates a man of such a progressive spirit as Mr. Schreiber has shown.

NEW ORLAND CATHOLIC CHURCH

Orland has been showing a decided progressive step within the past year and among the new buildings that have been erected is the Orland Park Catholic church.

As there are quite a number of Catholic families in this section, they decided to have a place of worship near at home, so on Palm Sunday 1923 Catholic services were first held in the town hall of Orland Park. The congregation grew rapidly and soon the town hall was found to be too small.

Larger quarters were greatly needed and at the logical moment the Modern Woodmen offered their large auditorium to the Catholics for divine services and this courtesy was much appreciated. This hall was used for sometime and then the congregation decided to build an edifice of their own. The hall, however was used until the new edifice was finished this summer.

Ground was broken for the new church on May 15, 1924. On June 15th the basement was finished and on Monday, June 16th the carpenters began work. The carpenter

work went on rapidly and on Sunday, August 10th a large congregation gathered in the new church for the first time.

About two acres of land have been purchased along with the church site and will be used for church purposes. If Orland keeps on growing as it has the past year, it will likely be necessary in the near future to build a larger church and a rectory and in this event the present building will be used as an auditorium.

The new church is thoroughly equipped in every way. The painting work has been finished, the electric lights have been installed and the furnace is also placed. A new departure in heating will be, the use of an oil burner in place of coal or wood.

Rev. J. C. Daly, S. J., of St. Ignatius College, is the priest in charge of the local parish. He has been untiring in his work in this community and has assisted much in getting the local congregation founded and has been very active in the building of the church.

ORLAND BUSINESS HAS EXPANDED ACCORD-

ING TO BANK REPORT

Orland has grown rapidly within the past few years and many new homes have been erected and many more are going up next year from the present outlook of things.

That Orland has been prospering is reflected in the fine business done by the Orland State Bank, whose bank report showed them to be leading all the banks in the sur-

rounding towns in point of business done.

The bank officials deeply appreciate the excellent patronage that the surrounding community has accorded their institution.

In addition to new homes, new business has also come to town. W. H. Hockman has opened a well equipped Ford Garage in the old Witt building and is carrying a line of Ford cars, tractors, trucks and parts. He came from LaGrange where he was actively engaged in

Gov. Small Issues Fire Proclamation

Governor Len Small has issued the following proclamation relative to observance of fire prevention week:—

Illinois has increased its material resources at a wonderful rate. We are a progressive State. Our road building program, which is giving us the finest system of paved highways in the country, is a tribute to our initiative. Our progress in other lines has been apace.

It is fully as important to conserve resources as it is to create them. Yet we permit more than \$20,000,000 of property to be destroyed by fire each year in this State. I say we permit it, because fully three fourths of all fires are caused by acts of negligence or carelessness, and are strictly preventable.

If unabated, our fire losses will cost us \$100,000,000 in the next five years, enough to pay for the proposed new bond issue roads.

Fire leaves a trail of ruin and desolation in home, factory, store and every other kind of property. It kills and maims hundreds.

Now, therefore, I, Len Small, Governor of Illinois, do hereby appoint and proclaim the week from October 5 to October 11, 1924 to be observed in the State of Illinois as FIRE PREVENTION WEEK.

Let us not merely a prefatory observance of Fire Prevention Week. Let each citizen rid his premises of fire hazards and keep them free from such hazards henceforth.

Heating equipment including chimneys, should be made safe. Electric wiring should be examined and defects corrected. Rubbish should be thoroughly cleaned up and safely disposed of. Carefulness should be exercised with all things which may cause fire.

Especially should schools, churches, theaters, public halls, hospitals, hotels and the like be made as safe as possible, with adequate exit facilities. Fire drills should be practiced in all schools.

Thursday, OCTOBER 9, is designated as FIRE PREVENTION DAY because it is the anniversary of the Chicago fire. It would be appropriate, where possible, to have practical, instructive talks and programs on that day in the public schools and before Chambers of Commerce and Civic organizations. Local officials should do all possible to reduce fire losses in their communities. Cooperation of press and pulpit is earnestly invited to the same end."

MOKENA

The residence of Emil Capple Highway Commissioner of Frankfort township, was robbed Sunday night and the fact that robbers had ransacked the house was not known by the family until Monday morning. The residence is on a farm east of Mokena close to the Rock Island tracks and it is thought the robbers must have come in on the railroad. A window on the east side of the house was pried open and entrance gained.

The family was sound asleep and did not notice anything and were greatly surprised in the morning to see that they had been robbed. A pair of shoes, coat, overcoat, razor, pocketbook containing \$4.50 was the loot taken.

Quite a little petty thievery has been going on in Mokena of late. Gasoline and kerosene tank thieves have been very busy also. Recently someone had loaded up a child's wagon with kindling wood and became scared and in their flight left the wagon and wood behind them. The wagon is still waiting for the owner to come and take it.

It is too bad that the old and safe way of upright living seems to have been forgotten by some of our towns people. Well ill gotten gain may work all right for a while but it don't pay in the end and it is a bitter dose finally.

Wm. Lynk and Chas. Liess returned from Wisconsin to day.

Miss June Vogel entertained the Ever Faithful Class of the M. E. Sunday School, of which she is a member, at her home on last Wednesday evening.

Mrs. Robert Bechstein entertained the 500 club at her home in Mokena last Friday afternoon.

Rev. Henning was installed as pastor of the Immanuel Lutheran church last Sunday.

TINLEY PARK

The Tinley Park bunco club was entertained at Mrs. C. Goessel last week it also being her birthday. She was well remembered with gifts. The prizes were won by Mrs. Rod. Mrs. Wm. Wannemacher and Mrs. Schmiedeknecht first and second and Mrs. Wm. Clemens booby.

Mrs. H. C. Vogt Jr., also had a birthday and bunco was played. At lunch time covers were laid for 42. All had a good time and thought their hostess charming.

The Ladies Aid of the German M. E. church will give a chicken supper and hold their bazaar on Nov. 5th in the hall at Tinley Park.

The Ladies Aid of the Zion Lutheran church will hold their bazaar and supper on October 9th.

Mrs. Wm. Scheer spent Thursday in Mokena.

Tinley Park has a new bunco club, called Bremen Club in honor of the old township and meets every Wednesday evening.

Mr. and Mrs. Behrens are visiting at the Kelebers home for an indefinite length of time.

The monthly meeting of the Aid society of the Zion church will be at the home of Mrs. Hartwig on Wednesday October 1. All the ladies of the Aid and church are asked to attend and visitors are always welcome.

Mrs. Geo. Copland of Minneapolis and Mr. and Mrs. Hampton Vokel of Chicago are visiting at the home of Mr. and Mrs. Fred Nelson.

Palos Park

The Palos Women's Club held their meeting at the home of Mrs. A. Paskley on Thursday Sept. 18th. Mrs. Paskley furnished the entertainment for the afternoon. She read a story the title being "The Salvation of Kites". The story was composed by herself. Then she told about flowers, after which all went out and enjoyed looking at her yard of beautiful flowers. Luncheon by served by the hostess and all enjoyed a delightful time. The next meeting will be at the home of Mrs. Cavanaugh.

The Walungum Club met at the home of Richard McClaughry on Saturday September 20th. The annual election of officers was held.

Mrs. Henry Munch started on a trip to Washington, Saturday evening. She will visit her mother and other relatives there.

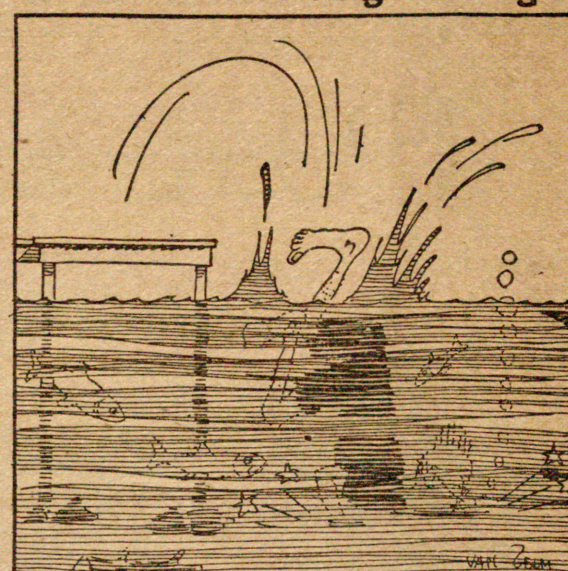

Mr. and Mrs. Sankivitz and family of Chicago were the guests of Mr. and Mrs. Henry Munch and daughter, Sunday.

ORLAND

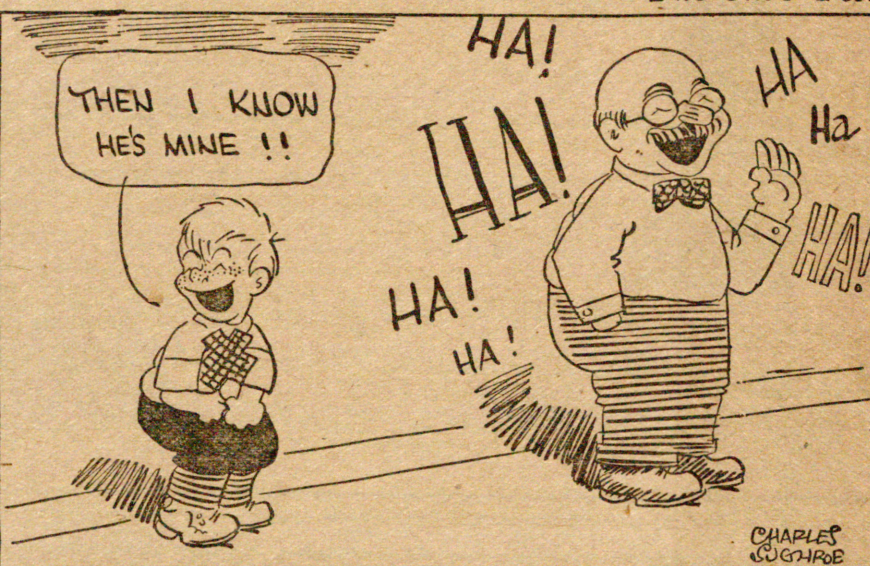

The Young People's Club will give a bunco party October 1st, in the basement of the school. Every one welcome.

Mrs. Wheeler and daughter Kathy and Helen and Hazel Schmiedeke saw the "Covered Wagon" Sunday evening in Chicago.

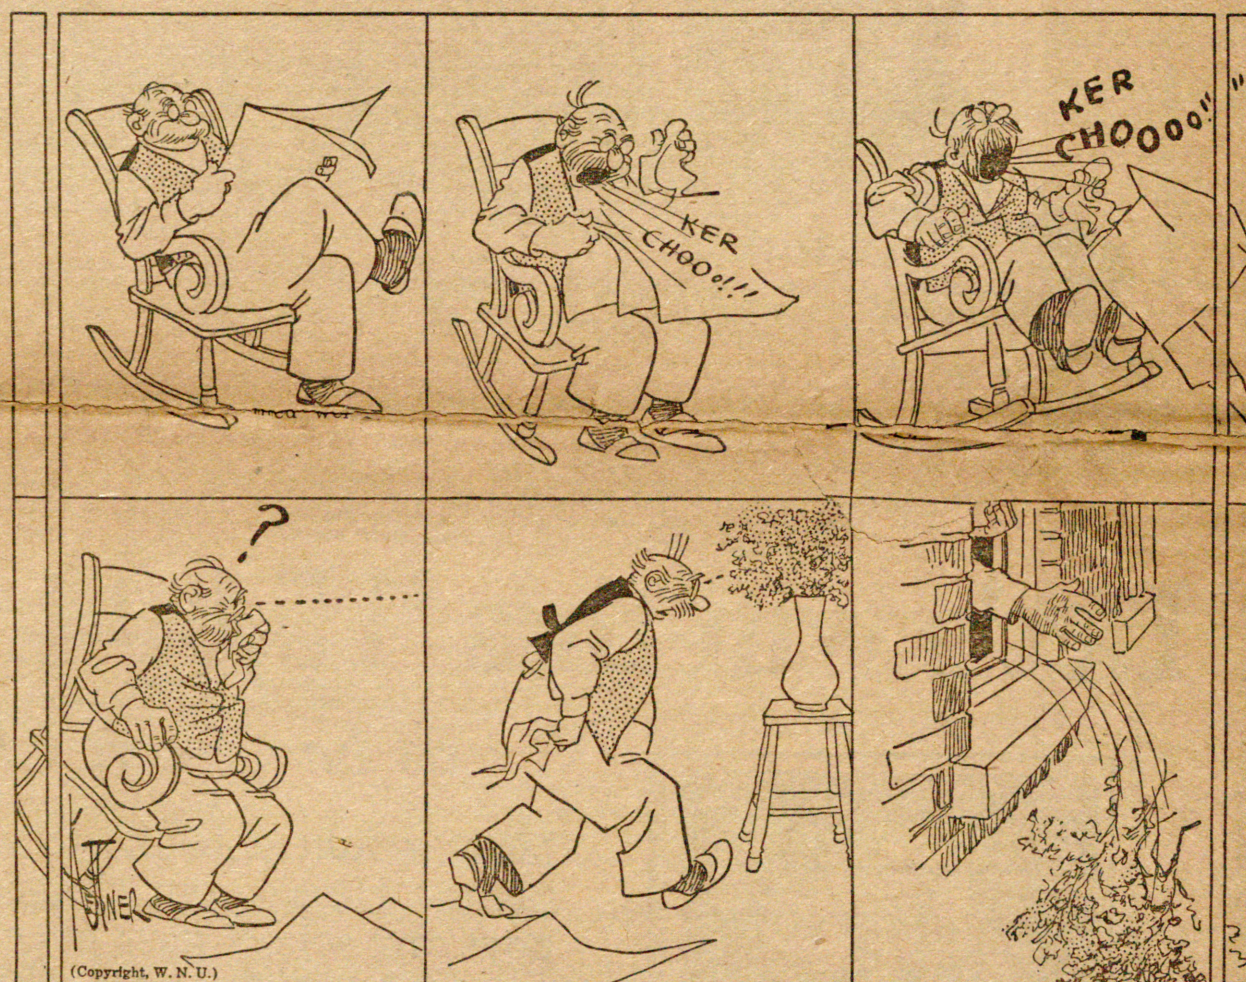

German services with communion at the Christ Lutheran church, Sunday, October 5th.

OPERATION ADVISED FRIEND SAID "DON'T DO IT!"

Try Lydia E. Pinkham's Vegetable Compound First. Proved Good Advice

Chicago, Illinois.—"Just a few lines to let you know what Lydia E. Pinkham's Vegetable Compound did for me. I was married going on for three years, and went to a doctor and was taking treatments twice a week for pains every month. I used to lie in bed three or four days with them and the doctor would call and inject something into my arm to put me asleep so I would not feel the pains. At last she said I would have to be operated on if I wanted any children. Well, I just happened to go to see a friend with her first baby and I told her I was going to the hospital, and she said, 'Don't do it! You go and get a bottle of Lydia E. Pinkham's Vegetable Compound and you won't need any operation.' So my husband got me a bottle right away. Now I have two lovely children. Believe me, I recommend the Vegetable Compound to any woman I know has any kind of female trouble. It has helped me and a lot of my friends."—Mrs. A. MCANDLESS, 1709 S. Morgan St., Chicago, Ill. For sale by druggists everywhere.

No civilization that didn't wear trousers ever lasted. 'Tis why Sparta disappeared and Rome fell.

The problem of life cannot be solved by touching the button.

Heart Specialists Organize

The American Heart association is a recently formed organization of cardiac specialists whose announced purpose is "to study and disseminate knowledge concerning functional derangements and maladies of the heart, to promote scientific treatment of such sufferers, to relieve the sufferings of patients unable to work because of the disease, and to select avenues and means of employment suitable to other patients."

William Dalton, who walked out of the offices of the Northern Trust company three years ago with \$772,000 in bonds, was found "not guilty" by a jury in Judge McGorty's court at Chicago.

Coal operators have notified Chicago retail dealers that the cost of fuel has been increased 25 to 75 cents per ton. Southern Illinois coal will be raised 25 cents, while West Virginia Pocahontas will go up 75 cents.

Five persons, including a child, were drowned when a closed automobile crashed through the railing of a bridge into Fort Point channel, near Boston.

The most important national convention in the short but dynamic history of the American Legion came to an end at St. Paul, Minn., after James A. Drain, Washington (D. C.) attorney, had been elected commander for the coming year. Jim Drain has only one slogan, "For God and Country," in his banner. For God and country in peace times, just as the Yanks were for God and country in 1917.

Dr. J. W. Peacock of Thomasville, N. C., who escaped from the criminally insane ward of state's prison at Raleigh, N. C., on August 30, 1922, was captured at El Cajon, Cal., state prison officials announced. The search had been nation-wide.

The Gedney Farm hotel at White Plains, N. Y., was destroyed by fire with a loss of more than \$1,000,000. All the 150 guests escaped unhurt.

The Federal Reserve bank moved \$3,000,000,000 through the streets of New York to its new treasury in the Monolithic building. The route bristled with machine guns, shotguns, and army automatics and 37 armed and gas-proof express cars.

Six persons were killed at Thopt, Wis., when a tornado practically wiped out the town. The town of Sanborn was also struck by a tornado and six persons killed and several hurt. One man was killed at Milwaukee.

A tornado dipped to earth at Hot Springs, Ark., demolishing the St. Luke's Episcopal church and unroofing a portion of the Eastman hotel. No fatalities were reported.

One hundred and seventy-eight entries have been made for the international air races at Dayton, Ohio, October 2, 3 and 4. Three army planes have entered the Pulitzer speed race.

There is plenty of milk for Chicago this winter, and there will be no rise in prices, W. E. Wanser, secretary of the Milk Dealers' association, said.

Five armed and masked men entered the Wellston Trust company at Wellston, Mo., held up the officials and made their escape with about \$40,000.

Important News Events of the World Summarized

Washington—

When the United States Supreme court reassembles at Washington October 6 for the beginning of its fall term its members will find a full docket awaiting them.

The Supreme court at Washington has been asked to decide how far the director of the veterans' bureau can go in prescribing what shall constitute total disability in the matter of functions for former service men.

Awards totaling more than \$65,000,000, a sum which includes approximately \$34,700,000 to 61 American insurance companies and \$24,300,000 to the veterans' bureau, were handed down by the American-German war claims commission at Washington.

Wholesale prices of 404 commodities continued their upward swing in August, due chiefly to the continued increase in prices of farm products and foods. Figures made public by the bureau of labor statistics of the Labor department at Washington showed an advance in the weighted index from 147 for July to 149.7 for August.

Compliance with the order of the federal trade commission abolishing the "Pittsburgh plus" system of quoting prices of rolled steel products was announced at Washington by the United States Steel corporation. A formal note of compliance was filed with the commission by the corporation and its various subsidiaries which were respondents in the case.

Domestic—

A letter from the pope praising the society was read at the opening of the convention of the Holy Name Society of America at Washington. An address was delivered by Cardinal O'Connell, archbishop of Boston.

Thirty-five bodies have been recovered from the Sublet (Wyo.) mine, which was wrecked by an explosion. Four miners are still missing and are believed to have perished. Twelve men escaped alive.

William Dalton, who walked out of the offices of the Northern Trust company three years ago with \$772,000 in bonds, was found "not guilty" by a jury in Judge McGorty's court at Chicago.

Coal operators have notified Chicago retail dealers that the cost of fuel has been increased 25 to 75 cents per ton. Southern Illinois coal will be raised 25 cents, while West Virginia Pocahontas will go up 75 cents.

Five persons, including a child, were drowned when a closed automobile crashed through the railing of a bridge into Fort Point channel, near Boston.

The most important national convention in the short but dynamic history of the American Legion came to an end at St. Paul, Minn., after James A. Drain, Washington (D. C.) attorney, had been elected commander for the coming year. Jim Drain has only one slogan, "For God and Country," in his banner. For God and country in peace times, just as the Yanks were for God and country in 1917.

Dr. J. W. Peacock of Thomasville, N. C., who escaped from the criminally insane ward of state's prison at Raleigh, N. C., on August 30, 1922, was captured at El Cajon, Cal., state prison officials announced. The search had been nation-wide.

The Gedney Farm hotel at White Plains, N. Y., was destroyed by fire with a loss of more than \$1,000,000. All the 150 guests escaped unhurt.

The Federal Reserve bank moved \$3,000,000,000 through the streets of New York to its new treasury in the Monolithic building. The route bristled with machine guns, shotguns, and army automatics and 37 armed and gas-proof express cars.

Six persons were killed at Thopt, Wis., when a tornado practically wiped out the town. The town of Sanborn was also struck by a tornado and six persons killed and several hurt. One man was killed at Milwaukee.

A tornado dipped to earth at Hot Springs, Ark., demolishing the St. Luke's Episcopal church and unroofing a portion of the Eastman hotel. No fatalities were reported.

One hundred and seventy-eight entries have been made for the international air races at Dayton, Ohio, October 2, 3 and 4. Three army planes have entered the Pulitzer speed race.

There is plenty of milk for Chicago this winter, and there will be no rise in prices, W. E. Wanser, secretary of the Milk Dealers' association, said.

Five armed and masked men entered the Wellston Trust company at Wellston, Mo., held up the officials and made their escape with about \$40,000.

Jesse Williams of Atoka, Okla., has confessed, according to officers, to the killing eight years ago of Will Sexton, whose disappearance was long an Atoka county mystery. The confession, officers said, involved Sexton's widow, whom he charged directed the murder.

After a band of 3,700 pieces, representing every state in the Union, had played a wedding march, Erling Maine of Winnebago, Minn., and Ruth Masters of Truman, Minn., were married before 50,000 spectators at the State fair grounds at St. Paul, 18 American Legion chaplains officiating. The 1925 Legion convention will be held at Omaha.

The American industrial mission left Mexico City for the United States after attending a banquet at the official residence of President Obregon. Investments of American capital are expected to grow out of the mission.

Public funerals for the victims of the mine disaster at Sublet, Wyo., were held. A great memorial service was held at Kemmerer.

Dr. Arthur D. Little of Cambridge defined the "fifth estate" in an address at Philadelphia as "that small company upon whose creative effort the world depends for the advancement of science."

Awards totaling \$97,615.20 to American claimants in five Lusitania cases were announced at Washington by the German-American mixed claims commission.

R. H. Weber, forty-five, his wife, thirty-six, and three children, Dollie, fourteen; Arnold, five, and Ruth, three, were killed when the Dixie Flyer, on the Western & Atlantic railroad, struck an automobile near McCarthy, Tenn.

Personal—

Suffering a sudden attack of appendicitis while in the executive offices, Governor Hunt of Arizona was rushed to a hospital at Phoenix for an operation.

Samuel Gompers, president of the American Federation of Labor, is ill in his room at a hotel at New York.

Gaylord Lloyd, elder brother and casting director of Comedian Harold Lloyd, and Miss Vera Webb, known in the films as Barbara Starr, were married in Los Angeles.

Arthur S. Huey, a leading figure in the public utility world, died at his rooms in the South Shore Country club at Chicago after a three-day illness of pneumonia.

Mme. Jennie Dufau, favorite coloratura soprano of the Chicago Grand Opera company in 1914-15 and angel of the battlefields in the World war, is dead in Pau, France, it was learned.

Edward C. Platt, vice president and treasurer of the Mackay companies and the Postal Telegraph company, died unexpectedly of a heart attack in New York.

Former United States Senator Cornelius Cole celebrated his one hundred and second birthday with his daughter and other relatives in their Hollywood home.

Charles Zuehl, well-known sociologist and one-time member of the University of Chicago faculty, died suddenly in his villa near Geneva, Switzerland. He was fifty-eight years old.

Foreign—

Special investigating commissions find that in 1,235 Jewish pogroms 79,000 persons were killed, 50,000 driven from their homes and 20,000 children made destitute, says a dispatch from Kharkov, Ukraine.

The Georgian legation in Paris announced that the Georgian Metropolitan Nazari had been executed at Kutais by Russian troops. The churchman was sixty-eight years of age and ill, the legation announced.

The Third Chekiang army has revolted, General Lu has abdicated his position as tuchun of Chekiang and Shanghai is threatened by the Kiangsu troops, says a Shanghai dispatch. The Third army of General Lu has been left in Chekiang province to defend it against Fukien troops and when the revolt came General Lu abdicated and fled his provisional capital, Hangchow.

Much comment was aroused at Shanghai, China, by Gen. Wu Pei Fu's pronouncement that nothing short of Gen. Chang Tso Lin's elimination as governor of Manchuria could be regarded as a satisfactory conclusion to the present war. General Wu is sending 200,000 troops northward and possible difficulty with Japanese interests in consequence of the act is not regarded as a remote possibility.

It was announced by Foreign Secretary Bray at London that latest information from Kohat, northwest frontier province, reported 35 persons killed and 115 injured during the rioting September 9 and 10.

Prince Frederic Hohenlohe-Waldenberg was fatally injured when his automobile jumped the road, turned over and burst into flames near Budapest.

A state of siege has been declared in Bulgaria as the result of the rising of the peasants.

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Should Use Swamp-Root

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. Dr. Kilmer's Swamp-Root is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation, send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing, be sure and mention this paper.—Advertisement.

Weather Affects Tumors

That the growth of malignant tumors is related to the general weather conditions and to sunlight in particular has been shown by investigators in the Rockefeller Institute for Medical Research. Drs. W. H. Brown, L. Pearce and C. M. Van Allen have had a number of rabbits suffering from malignant tumors, under observation. A comparison of meteorological records and the growth of tumors in diseased rabbits revealed a striking coincidence between the decrease of tumor growth and the periods of maximum and minimum sunlight, that is, in summer and winter seasons; while the greater malignancy occurred at the times of sudden and rapid changes in the hours of sunshine a day. The latter periods correspond roughly with spring and fall of this year.

Watch Cuticura Improve Your Skin. On rising and retiring gently smear the face with Cuticura Ointment. Wash off Ointment in five minutes with Cuticura Soap and hot water. It is wonderful what Cuticura will do for poor complexions, dandruff, itching and red, rough hands.—Advertisement.

Bakery Does Big Business

One bakery in this country uses 60,000 cases of blackberries, cherries, blueberries, pineapples, strawberries and raspberries every year in making pies.

Your character cannot be essentially injured but by your own acts.

L. F. BEACH CO.'S ANNIVERSARY CELEBRATION

IN COMMEMORATION OF ITS FOUNDING 56 YEARS AGO

This advance announcement is made to prepare you for some very extraordinary things we have arranged for all who come and join us in what promises to be a great occasion. The purchases our buyers have made are so full of unusual economies they make this easily the most important sale of recent years.

Our friends are invited to use the coupon below to tell us what class of goods they are most interested in at the present time. Fill out the coupon, mail or bring it in. Whatever your needs tell us, then watch the Joliet Evening Herald-News and in one of our ads during the course of these two weeks your "want" will be mentioned at a very unusual price.

L. F. BEACH CO.

I am interested in the following goods and would be pleased to see them featured in the Anniversary Sale.
It is understood that this expression in no way obligates me to make a purchase.

Name Address

ORLAND BUSINESS HAS EXPANDED ACCORDING TO BANK REPORT SHOWING

(continued from Orland page)
the garage business for many years.
W. R. Schussler who is also running a local garage has taken the Chevrolet and Nash agencies and has been doing a fine business this summer. In addition to taking on these agencies, he has a force of salesmen on the road all the time for new business.

Philip Steffen, Jr., who opened a dry goods store here a short time ago, has found business so good that he had to have larger quarters. Within the past few weeks he has had the ice house which adjoined his store, entirely remodeled and added to his present store, so that he now has quite a commodious store. Large display windows have been cut into the old ice house and when all the work is completed Mr. Steffen will have a very nice store. We hope that his business will continue to expand as rapidly this coming year as it has in the past so he will need still larger quarters. For the larger the stores, the more business there is in the community.

Orland has the best transportation service now to surrounding towns and Chicago. A bus line furnishes hourly service now and the Wabash also has quite a number of suburban trains operating between Orland and Chicago.

PLAN CITY OF 30,000 FOR COLORED PEOPLE

(Continued from front page)
will demonstrate to the world that you yourself are of the world's pushers instead of crying as has been heretofore the rule ("Hard Times and Lack of Opportunity"). Also you will demonstrate the fact that you are not satisfied to let existing conditions alone, but are using all reasonable means to make

things better; likewise you will prove your confidence in the ability of your people, and your unqualified interest in the welfare of your race.

Now we have opened this town site for your benefit and since it meets the requirements of the business man, professional man and the people in general, the only thing left is for you to prove your self and Buy Now.

Large lots 50 x 125 feet, only \$10.00 down and \$5.00 per month no taxes or interest for two years, or we will build you a home now, on a lot of your selection, only \$500.00 down and \$25.00 per month, only 6 per cent interest for balance until paid.

May we not hear from you—? It is expected by the promoters of the New Liberia Colony that 20 new homes will be erected between now and the first of the year.

NOTICE

Notice is hereby given that a special meeting of the stockholders of the Mokena State Bank, located at Mokena, Illinois, will be held at the banking house of said bank on Wednesday, November 12, 1924, at 3 o'clock P. M., for the purpose of considering the following question: "Shall the number of Directors of this bank be decreased from eight to seven?"

Movies Big Factor in Holding Community Interest Says Marley Community Church

The Marley Church was organized on October 5, 1833 with 11 charter members and was known as the Oplain Baptist church, being the first Baptist church in the Northern half of Illinois. This little band met in private houses and school houses. It was not until 1849 that a church building was erected. The building was located at Hadley and the name changed to Hadley Baptist Church. This was during the pastorate of I. B. Dibell, father of the late Judge Dibell of Joliet, who labored faithfully for 18 years. By 1869 the church had a membership of 37.

In 1900 a new church building and parsonage were erected in Marley and the name changed to the Marley Baptist church. At this time there was a considerable increase in membership. In 1911 the church adapted a program of more complete service to the community and after very thorough discussion, changed their rules so as to admit to full membership any who were or had been members of any other Christian church.

For this they were promptly expelled from the Aurora Association of Baptist Churches, and since that time have continued to work as an independent community church. This summer the church voted to no longer make baptism a requisite for church membership and sixty new members were received. It does not require subscription to any creed whatsoever, but does require a definite dedication to a definite program of service to the Kingdom of God and especially to that part of the Kingdom located in the community where the church is situated. They

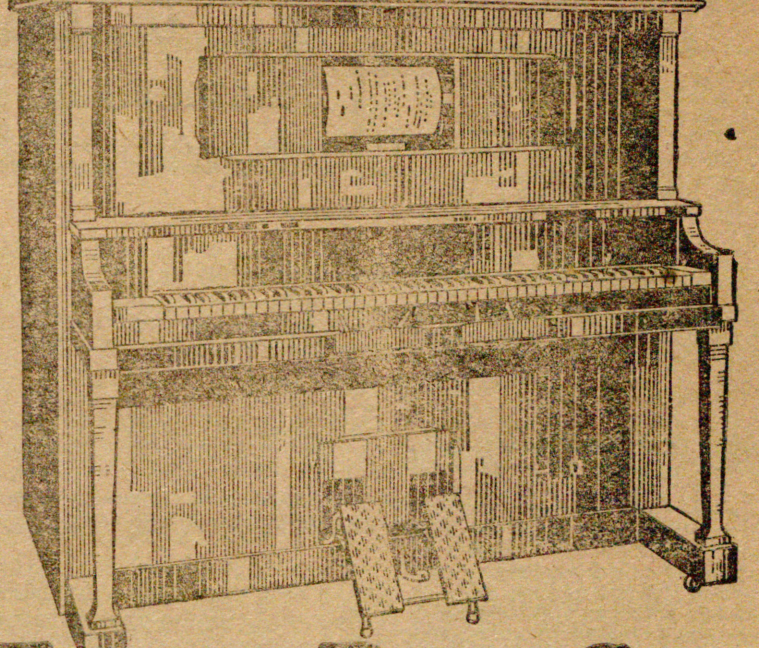

hold, that if men of all denominations Protestant, Catholic and Jews could stand shoulder to shoulder during the last world war fighting for their country, without considering their Theological or political differences, why can we not do the same in the days of peace when our country is still in danger from forces and foes within. They hold that the community should be the body that determines the nature of its religious work and worship, not some bishop or state superintendent from outside the community. In other words they believe in democracy in the church as in the State. Since Marley began its career as an independent community, it has flourished and grown as never before, while many other denominational country churches have languished and died. The Marley experiment has borne other fruit however. Since Marley definitely set out to serve the community rather than build up a church, over 800 other community churches have been organized in the United States, and they are now being organized at the rate of one per day.

In its program of community service, Marley conducted a very successful daily vacation school two summers ago. It had an enrollment of 59 and an average attendance of 45.

The program of the church is four fold; Inspiration, Education, Recreation and Co-operation. It provides for inspiration by its pulpit and public worship services held each Sunday morning, and the inspirational meetings of the Young People Club on alternate Sunday evenings.

Education is promoted by the

STEEGER

Factory Piano Sale

Save from \$125 to \$350

FACTORY PIANO STORE STEEGER & SONS

Piano Manufacturing Company

Charles E. Byrnes, Vice-President
STEGER, ILLINOIS

2 Miles South of Chicago Heights on the "Dixie Highway"

Bible school and Brotherhood and Women's Missionary Society.

Recreation is provided in the church basement which is open to the community every night in the week. Two bowling alleys and a billiard table have been installed as well as many other games to give physical recreation. Boxing gloves and punching bags and other gymnasium equipment are soon to be added.

Mental recreation is provided by a moving picture machine installed by the Women's Missionary Society and the Young People's Club. One first class picture a week is shown on alternate Friday nights and alternate Sunday nights. These are very largely attended and are serving a real need in the community. Last Sunday night the church was filled and chairs were placed in the aisles.

Co-operation is, working with other churches, Farmers clubs, and Household Science Clubs. Missionary Boards, City Missions, Law Enforcement League, etc.

The organizations, include a live Women's Missionary Society which meets monthly for their devotion and work for the church and hospital.

It arranges a big bazaar and supper each year and serves meals at sales. It contributes liberally to the church budget and makes many repairs and adds to the church plant.

The Brotherhood is a live institution. It meets every Sunday morning in its own room and studies every day vital problems. Once a month it gives a community entertainment or concert of some kind. It arranges for the annual July 4th demonstration. Every Tuesday evening it meets for games in the church basement.

The Sunday School is well organized and has classes for all ages well managed by competent teachers.

The Young Peoples' Club has a membership of 75. It meets every Sunday night. Twice a month it has a devotional meeting and the other two evenings a month has a worth while moving picture program. It sponsors the weekly picture programs and provides the equipment for the recreational activities in the basement. It has one night a week for games and provides for the community on the other nights. Boys under 16 have

games on Monday and Wednesday nights. The office which the basement is open to adults. The men have the whole of Tuesday evening to themselves. On Thursday the women of the community are in charge and on Friday and Saturday nights, the Young People.

Anything in any way which will help the community is considered its duty by this church.

ORLAND

Mr. and Mrs. John Witt of Chicago entertained a number of relatives in honor of their 50th wedding anniversary Sunday. A fine dinner was served.

Those present were Mr. and Mrs. John Schmadeke and family, Mr. and Mrs. John Burkhardt of Beverly Hills, Mr. and Mrs. Wm. Schmadeke of Blue Island, Mr. and Mrs. Wm. Loebe, Mr. and Mrs. Aug. Witt and Mrs. Kott of Hammond, Ind.

Miss Linda Shoul of Chicago spent Sunday with her friend Miss Adelle Schmadeke.

Mr. and Mrs. Walter Schussler moved from the Gee-Cooper flat to live with the former's parents, Dr. and Mrs. Schussler. Mrs. Raymond Cooper will move into the flat vacated by them.

Mr. and Mrs. Gebhardt Koehler, Mr. and Mrs. Geo. Steinhagen and son, Martin, Mrs. Ed. Rust, Mr. and Mrs. John Helenhouse, Ed. Rust Jr., Mr. and Mrs. Wm. Kollman and son Martin, and Mr. and Mrs. Christ Steinhagen attended the fair at Peotone Thursday.

Mrs. Ed. Rust entertained the following at a quilting Wednesday: Mrs. Chas. Burkhardt, Mrs. Wm. Dohrn, Mrs. Geo. Steinhagen and Mrs. Geo. Cox. A fine dinner was served at noon.

Mr. and Mrs. Lawrence Uthe and son Eugene, and Mr. and Mrs. Rice of Tinley Park attended the Lake County Fair at Crown Point, Indiana, on Thursday.

The Ladies aid of Lutheran church gave a bunco at the John Habenicht home east of town was well attended. Twenty-five tables played twenty-five games. Those scoring high were: Mrs. Wm. Schmidt, Mrs. Herman Nicolai, Mr. Krohn and Miss Mabelle Rust. All were awarded a fine prize. Lunch was served. \$47.35 was cleared.

Mr. and Mrs. John Schmadeke spent Friday in Blue Island.
